AcuSense
Precise Detection & False Alarm Reduction

ALARM	DISCARD	STROBE LIGHT & ALARM - DAYTIME	STROBE LIGHT & ALARM - NIGHTTIME

Hikvision AcuSense cameras and NVRs precisely detect human and vehicle movement versus non-human objects such as rain, animals or leaves, providing effective intrusion detection and greatly reducing false alarms in any environment.

With AcuSense, budget-conscious customers get the latest intelligent surveillance features and significant false alarm reduction.
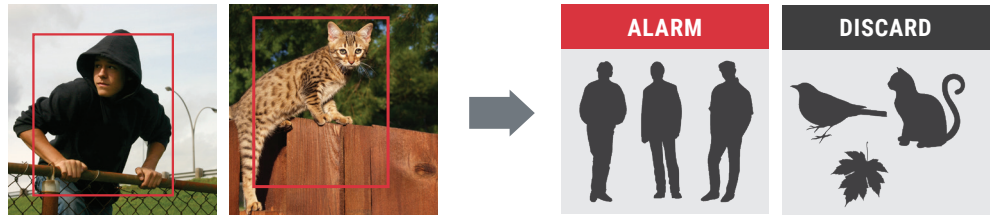

Key AcuSense benefits:

- False Alarm Reduction: Focus on only important events
- Quick Target Search: Find important events fast
- Strobe Lighting and Audio Alarm Message: Deter intruders
- AcuSense cameras can be used with Hikvision "I" series NVRs or AcuSense NVR series.
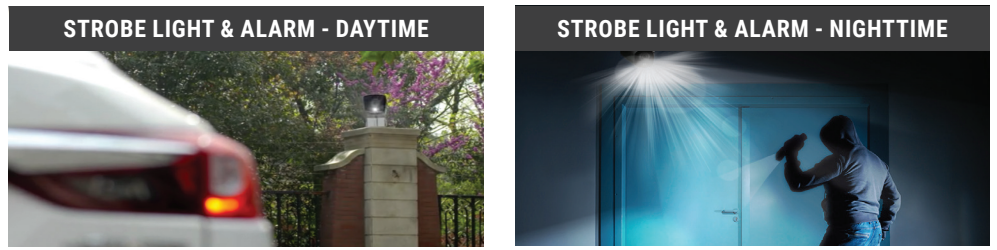

HIKVISION®

Key AcuSense benefits:

False Alarm Reduction: Avoid wasting time and money on non-threatening events, with quicker and more accurate intrusion detection.

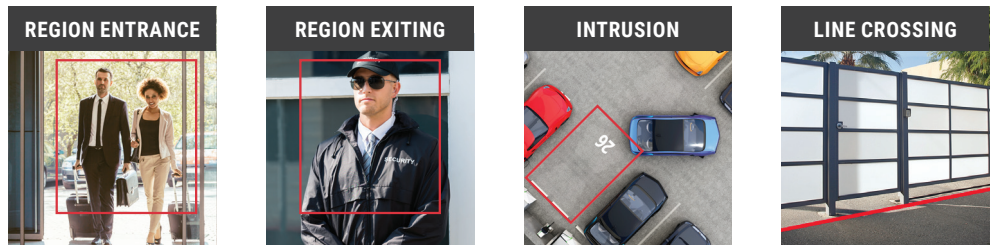

ALARM	DISCARD

Quick Target Search: This feature saves time by identifying footage of people and vehicles automatically, so staff do not have to search footage manually.

HUMAN BODY DETECTION

VEHICLE SEARCH

Strobe Lighting and Audio Alarm Message: Enhances deterrence. Once a potential intruder has been accurately detected, the AcuSense camera triggers the built-in strobe light and audio alarm to warn the intruder before they act. (SL models)

STROBE LIGHT & ALARM - DAYTIME

STROBE LIGHT & ALARM - NIGHTTIME

Ideal application: Entrances and exits, perimeter fences, restricted spaces, parking lots, outdoor storage, car lots, construction sites and more.

REGION ENTRANCE   **REGION EXITING**   **INTRUSION**   **LINE CROSSING**

AcuSense cameras can be used with Hikvision "I" series NVRs or AcuSense NVR series. Please note, Smart Search and False Alarm Search are only available in AcuSense NVRs.
