AX PRO WIRELESS ALARM SYSTEM

NETWORK CAMERA WITH ACUSENSE

THERMAL CAMERA

AX PRO WIRELESS ALARM SOLUTION

NOW ENHANCED WITH SMART PERIMETER PROTECTION

Combined with Network Cameras with AcuSense and Bi-Spectrum Thermal Network Cameras, the AX PRO system now offers multidimensional protection, indoors and out.

HIKVISION®

Perimeter Protection Solution

Network cameras with AcuSense and Bi-Spectrum Thermal Network Cameras upload smart events using the AX PRO hub, providing multidimensional perception for enhanced outdoor security.
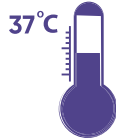

Line crossing detection

Area intrusion detection

Human/vehicle classification

37°C

Temperature irregularity detection

Human absence detection

Intrusion Protection Solution

With intrusion detectors placed around windows, doors, and other areas, the AX PRO system delivers precise indoor detection and protection.
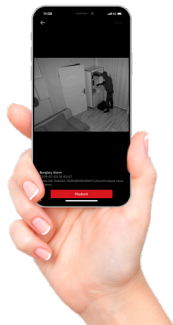

Motion detection

Door detection

Fire detection

Water leakage detection

IVaaS
(Intrusion Verification as a Service)

With IVaaS, a 7s video or GIF imaging from network cameras with AcuSense, Bi-Spectrum thermal cameras or PIRCAM can be received via Hik-Connect or by Email for quick verification of alarm-triggering events.

KEY PRODUCTS

AX PRO Hub

- Wi-Fi module
- GPRS/3/4G module
- IPC and PIRCAM supported
- Dual SIM card design
- Tri-X & CAM-X wireless technology
- Hik-ProConnect / Hik-Connect
- SIA/CID protocol

Thermal Network Camera

- Excels in any environment
- Human/vehicle classification
- High temperature & human absence detection
- Built-in flashing light and speaker for instant warning

Network Camera with AcuSense

- 2/4/6/8 MP high-definition
- H.265 / H.265+
- Human & vehicle classification
- Various form factors for multiple installation scenarios
- Multiple options for low-illumination performance levels
