

Cooled Bi-Spectrum Sphere PTZ for Long-Distance Perimeter Protection

A Sturdy First Line of Protection

Cooled Bi-Spectrum Sphere PTZ

640 x 512 Cooled MWIR thermal detector
2 MP optical camera with a 10 - 1,000 mm lens

Long-range Detection in any Light Condition

Detects vessels at up to 32 km (17.28 nmi) away
(vehicles: 25 km, humans: 22 km)

Accurate Measurements with Laser Rangefinder

Get precise distance on targets up
to 20 km away
