DS-2XS6A87G1-L/C32S80

Flexible Security. Environmental Sustainability

Solar-powered standalone security site

No extra wiring or electricity

4G data transmission

Beaufort scale 12

IP67 protection

· Sustainable security can be as sure as the sun rising in the morning – solar power supplies all the energy for day and night operation

· Wireless installation provides the flexibility to secure remote areas or temporary sites

· An all-inclusive setup - light enough for one person to install, but strong enough to withstand heavy rains and fierce weather
