

## DVR/NVR VGA&HDMI&BNC Output Comparison Chart V2.0

| DVR/NVR Firmware Version            |                     |
|-------------------------------------|---------------------|
| DS-7604NI-SE/P, DS-7608NI-SE/8P     | V2.3.7 Build 140122 |
| DS-7200HWI-SH, DS-7300HWI-SH        | V2.2.8 Build 130902 |
| DS-9000/9600-ST/RT, DS-7716NI-SP/16 | V3.0.2 Build 140126 |

Menu->System Configuration->General----->

| Model \ Output |                                    | Video Output Interfaces                    | Default Output Rules(When menu output is set to Auto)  |
|----------------|------------------------------------|--|--|
| DVR            | DS-7200HWI-SH<br>DS-7300HWI-SH     | VGA, HDMI, Main BNC                        | <ol style="list-style-type: none"> <li>VGA/HDMI are synchronous output.</li> <li>If VGA or HDMI is connected before DVR starts up, menu is output on VGA/HDMI. Otherwise, menu is output on BNC.</li> </ol>  |
|                | DS-9000HFI-ST<br>DS-9000HWI-ST     | VGA, HDMI, Main BNC,<br>4 BNC spot outputs | <ol style="list-style-type: none"> <li>DS-9000HFI-ST VGA/HDMI are configurable to either synchronous output or asynchronous output. <b>DS-9000HWI-ST VGA/HDMI are synchronous output.</b></li> <li><b>VGA/HDMI are configured to synchronous:</b><br/>If VGA or HDMI is connected before DVR starts up, menu is output on VGA/HDMI. Otherwise, menu is output on main BNC.<br/><b>VGA/HDMI are configured to asynchronous(Uncheck synchronous)</b></li> <li>Menu output priority: HDMI &gt; VGA &gt; Main BNC</li> <li>BNC spot output supports 1-ch configurable analog video display only (IP video display is not supported on spot output).</li> </ol> |
| NVR            | DS-7604NI-SE/P<br>DS-7608NI-SE/8P  | VGA, HDMI                                  | <ol style="list-style-type: none"> <li>VGA/HDMI are synchronous output.</li> <li>Menu is output on VGA/HDMI.</li> </ol>  |
|                | DS-7716NI-SP/16<br>DS-9600NI-ST/RT | VGA, HDMI, Main BNC                        | <ol style="list-style-type: none"> <li>VGA and HDMI are configurable to either synchronous output or asynchronous output.</li> <li><b>VGA/HDMI are configured to synchronous:</b><br/>If VGA or HDMI is connected before DVR starts up, menu is output on VGA/HDMI. Otherwise, menu is output on BNC.<br/><b>VGA/HDMI are configured to asynchronous:</b><br/>Menu output priority: HDMI &gt; VGA &gt; BNC</li> </ol>  |
