HIKVISION®

HIKVISION SOFTWARE	DESCRIPTION:	HOW IT WORKS:	LICENSE OPTIONS:	BENEFITS:
HIKCENTRAL PRO	**HikCentral Professional (HCP)** is a software platform for integrating and managing security and AIoT systems. It is designed to respond to a variety of security challenges on a single platform. This software can manage multiple systems, such as video security, access control, alarm detection, and more, with cross-system functionalities.	Video functions: Efficient and comprehensive video security, enabling users to customize to get an all-encompassing view of all videos, maps and data. What's more, each video feed can be opened in a few seconds for quick preview and playback. Its Network Adaptation technology automatically adjusts video resolution, ensuring a smooth, view even in low bandwidth conditions. Access control functions: Different credentials will be granted for different roles, adding a level of security. Supports access by face recognition, cards, fingerprints, QR codes, etc.. Convenient employee badge design and printing with necessary access permissions	HikCentral-P-Unified-Bundle HikCentral-P-VSS-Base/64Ch HikCentral-P-VSS-Base/300Ch HikCentral-P-VSS-1Ch HikCentral-P-SmartWall-Module HikCentral-P-ANPR-Module HikCentral-P-FacialReco-Module HikCentral-P-BI Report-Base HikCentral-P-ACS-Base/2Door HikCentral-P-ACS-Base/16Door HikCentral-P-ACS-1Door HikCentral-P-Attendance-Module HikCentral-VideoIntercom-Module HikCentral-P-Indoorstation-1Unit	• Streamlines operations and management • Simplifies deployment and maintenance • Scalable to business size • Facilitates hassle-free integration • Improves security and reliability • Modern UI, easy to use • Allows for 3rd party integration, including support for Microsoft Active Directory
HIKCENTRAL CONNECT	**HikCentral Connect** is a cost-effective VSaaS cloud platform: flexible, secure and highly scalable. It provides unified, professionally managed security services 24/7.	Monitor multiple sites from anywhere, at anytime via the mobile app or web browser, and conveniently check the live feed and playback footage. Archive and search events easily via video clips, GIS imaging, and logs, and share them with the security team for quicker response times with a few clicks on the app. Reliable hybrid storage secures important event footage, uninterrupted even by poor bandwidth conditions or network failure. The hybrid solution is compatible with virtually all Hikvision devices.	HCC-Cloud Storage Video/30Day/1CH/1Y HCC-Cloud Storage Video/30Day/1CH/1M HCC-Cloud Storage Video/7Day/1CH/1Y HCC-Cloud Storage Video/7Day/1CH/1M HCC-Video/1CH/1Y HCC-Video/1CH/1M HCC-Vehicle/1Device/1Y HCC-Vehicle/1Device/1M	• Helps you manage and secure your premises from anywhere, anytime • Enhances business operations with reduced costs and reduced environmental impact • Allows you to scale your security system easily as your business grows • It is a secure & trusted solution • It's a powerful powerful platform for simplified deployment and maintenance • Stores important event footage, uninterrupted by poor bandwidth conditions or network failure
HIK-PARTNER PRO	**Hik-Partner Pro (HPP)** is a one-stop security service platform where Hikvision partners can easily get access to Hikvision product information, promotions, and marketing materials. You can enjoy efficient customer and device management as well as extended value-added services with round-the-clock convenience.	An intuitive Web Portal & Mobile App, HPP brings you our latest news, promotions, documents, and videos. Allows you to manage and maintain remote systems by effortless installation through remote configuration, versatile security tools, device self-tests, auxiliary diagnoses and customer authorization for site management. Offers value-added services of device health monitoring and company employee account management as well as co-branding. Supports workflow of online support case submissions and device password reset submissions.	Health Monitoring, All-Type Device Annual Package Health Monitoring, Network Camera Annual Package Company Management, Employee Account Add-On Annual Package Company Management, Co-Branding Annual Package	• Stay up-to-date with product news and promotions easily • Reduce installation time and enable remote maintenance, proactive status monitoring and services to enhance efficiency • Address your customer needs with converged physical security devices • Expand your business by creating subscription plans for recurring revenue
HIKCENTRAL REGUARD	**HikCentral ReGuard (HCR)** is designed for Managed Video Monitoring Centres, as well as traditional Alarm Monitoring Centers. This software combines two applications: that of a Managed Monitoring Centre with purpose-built Video Management Software, and intends to enhance security personnel awareness while decreasing the response time of incoming alarms.	Quickly eliminate false alarms through the alarm live view. Direct playback of all alarm-related recordings from remote location. Configure alarm distribution rule and standard operating procedure (SOP) for each location, each device, and even each alarm type. Retrieve video, audio and captured picture from remote location and save in the database and FTP server of the alarm center for retaining evidence and investigating afterwards. Multi-monitor support allows user to view alarms and videos at the same time, avoiding switching back and forth between different modules.	HCRG Basic Service (1 Workstation) / Year HCRG Visualized Alarm / Year HCRG Virtual Guard / Year HCRG Operational Enhancement / Year	• Allows for professional Monitoring Centres to increase effectiveness, reduce workforce, optimize alarm handling processes and improve response efficiency
