

# Unique Video Security Solutions for Your Cannabis Business

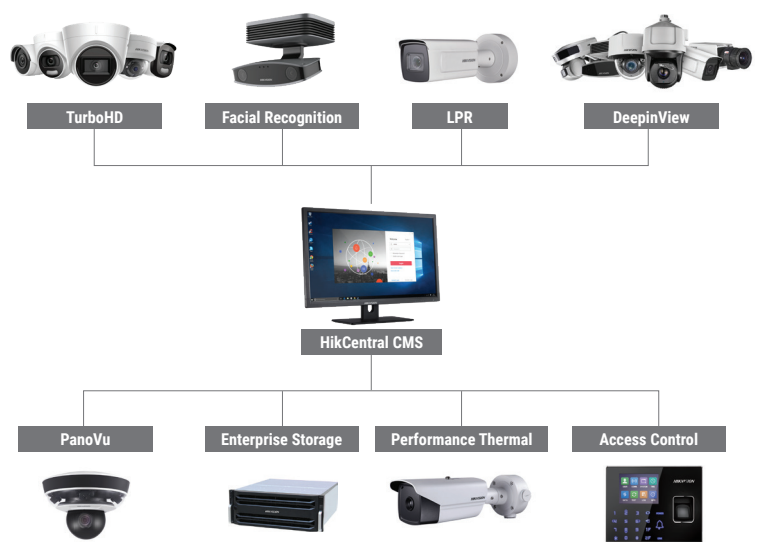

**HIKVISION**

Hikvision offers innovative video surveillance and storage solutions that meet local and state regulations without exceeding your budget. Solutions Include:

- **HikCentral CMS:** A scalable system for monitoring single or multi-location businesses with features such as alarm signal routing, map views, and access to video footage from your PC or smartphone.
- **TurboHD:** Hikvision's HD over coax solution enables upgrade to HD images and video using existing coaxial cable infrastructure.
- **Thermal Cameras:** Hikvision thermal solutions detect increased heat and temperature fluctuations, providing early warnings for fire detection and prevention, as well as detecting moisture levels in grow areas.
- **Facial Recognition:** Hikvision's facial recognition allows for quick authorized access, efficient record keeping, asset protection, and supports loss prevention efforts.
- **Access Control:** Access control and optical biometrics provide product and employee security, while ensuring only authorized personnel gain access where permitted.
- **Point-Of-Sale (POS) Integration:** Cloud-based POS integration merges POS data with associated video, providing better visibility into financial transactions.
