

How to Open the Door with QR Code in MinMoe Terminal

Title:	How to open the door with QR code in MinMoe terminal	Version:	v1.0	Date:	28/01/2021
Product:	Access Control			Page:	1of 4

## Preparation

This document displays guidance on how to configure QR code in IVMS4200 software and open door with it on MinMoe access control terminal.

## How to open the door with QR code in MinMoe terminal (Latest firmware version)

## 1. Set a QR Code for person

Add the device in 4200, add the person with QR code and apply the information of this person to device. (In this function, basically if we add the card, the system will automatically generate a QR code for this card which can be used to open the door.)
