

# HIKVISION'S VERSATILE POE NETWORK SWITCHES

## VISUAL

Dashboard provides visual system health status and sends real-time alerts, enables live camera views, and configuration to save integrators and users time by simplifying daily troubleshooting, maintenance, and management. (Available on both 100 Mbps & GB Smart Managed Switches)

## POWERFUL

Up to 90W per PoE Port Gigabit Switch delivers a substantial power source for high-power consumption cameras like Network Speed Domes, Multi-Lens Cameras, and TandemVu PTZs. Up to 984 feet long distance for transmission simplifies installation and reduces costs.

## CONVENIENT

Easy switch deployment saves time and money with plug and play installation that does not require configuration.

## SECURE

Auto-restart cameras once they are detected offline to secure video recording and ensure all critical events are captured.

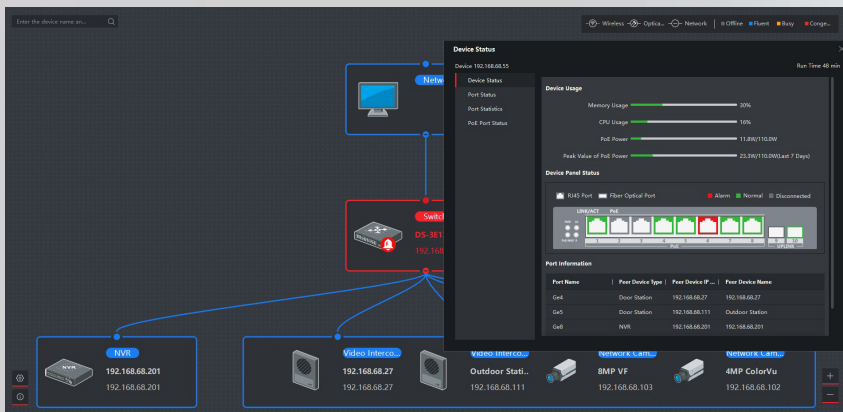

## PERFORMANCE

Key features like VLANs for segmenting, QoS for traffic prioritization, port bandwidth controls, and SNMP monitoring uplevel your network management. (Available on Gigabyte Smart Managed Series Switches)

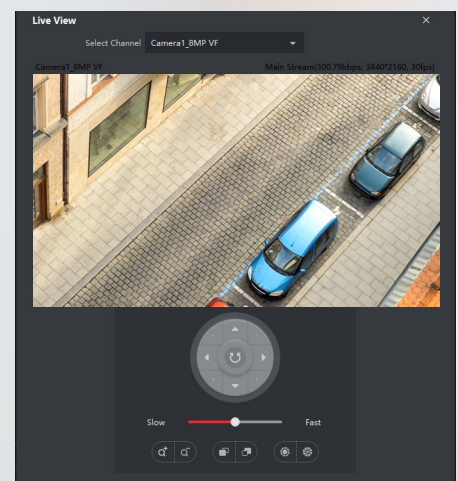

## KEY FEATURES

### VISUAL TOPOLOGY

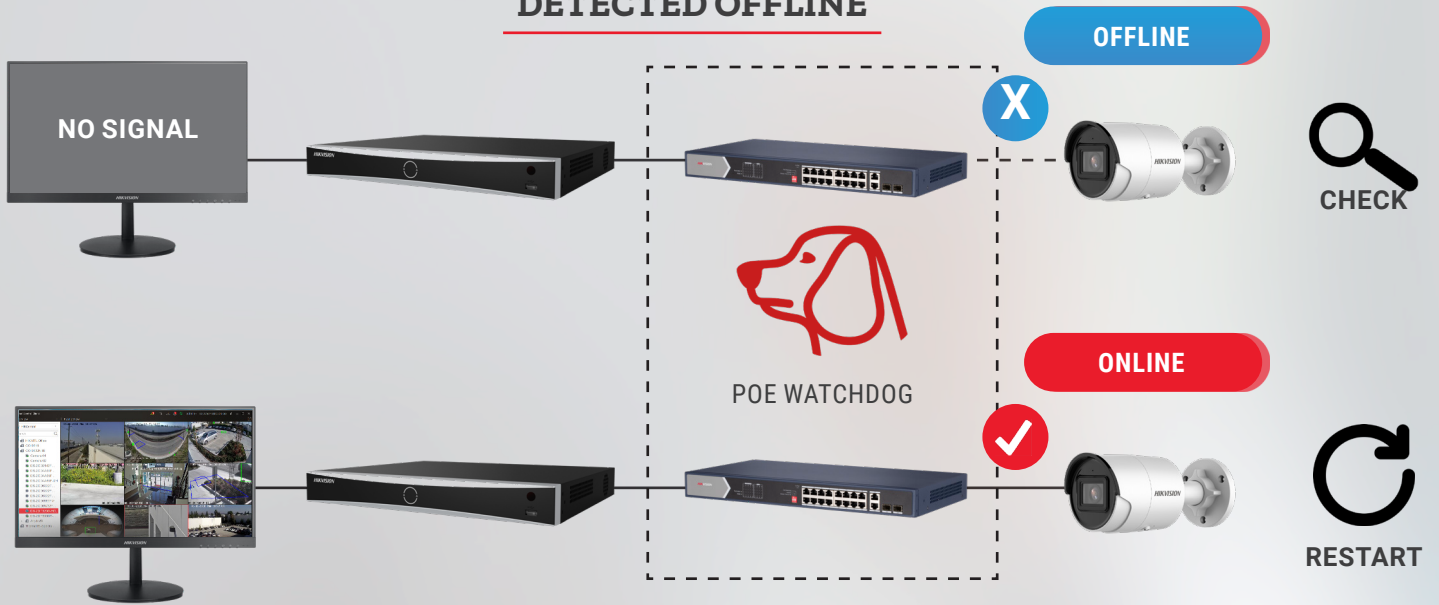

\*\*Topology and direct camera pre-view with PTZ control only available in Smart Managed Switches Series

### CAMERA LIVE VIEW

## AUTO-RESTART CAMERA WHEN DETECTED OFFLINE

## SURGE PROTECTION

**Indoor**

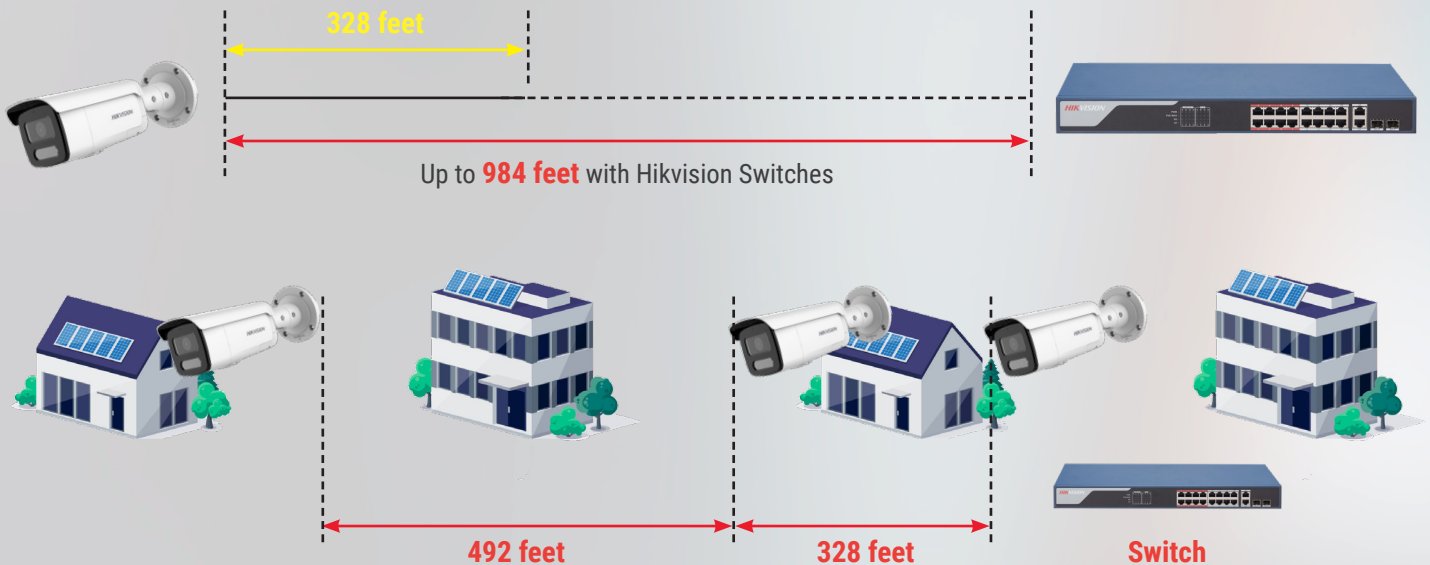

For common office scenarios, the equipment is deployed indoors and there is less need for surge protection

**Outdoor**

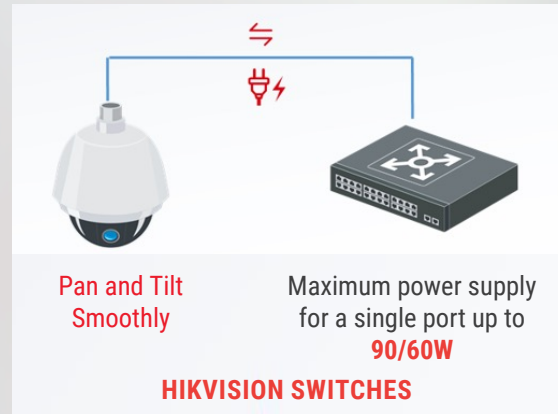

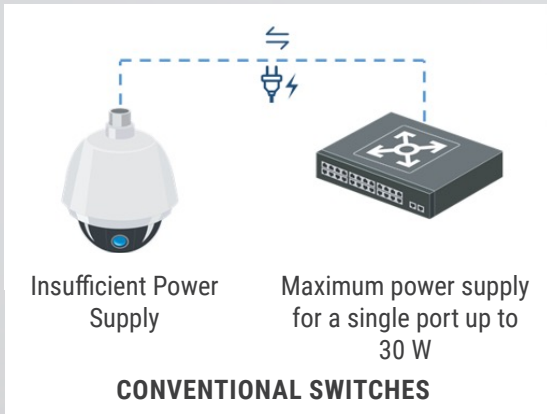

In the field of CCTV, cameras are mostly used in outdoor scenes. Especially in thunderstorms, it is easy to cause voltage overload or instability

## MAXIMUM 984 FT. LONG DISTANCE TRANSMISSION

## 60W/90W POWER SUPPLY

\*\* Hi-PoE power supply only available in Hi-PoE Unmanaged Switches Series

## APPLICATIONS

Small Scenes  $\leq 100$  Cameras

Unmanaged Hi-PoE

Medium Scenes  $100 \geq 200$  Cameras

-EI & -SI Smart Managed PoE

Large Scenes  $200 \geq 300$  Cameras

-SI Smart Managed PoE
