

ColorVu+X

Take video security above and beyond

Hikvision Combines ColorVu with multiple other Hikvision advanced technology to bring security to the next level, helping users to see further, wider, and clearer, gaining more value insights and monitoring their facilities more proactively.

- Panoramic camera delivers seamless 180-degree colorful images with no blind spot
- Up to 4K resolution options, provides a detail rich full-color image
- Human & vehicle classification to focus on what really matters
- Audio alarm and strobe light camera for proactive deterrence
- Varifocal lens options provide you a flexible installation for your projects
