

# How to configure false alarm analysis of 3 series semi self-learning camera

Title:	How to configure false alarm analysis of 3 series Version: v1.0				2023/07/06
	semi self-learning camera				
Product:	IPC	Page:	1 of 6		

## How to configure false alarm analysis of 3 series semi self-

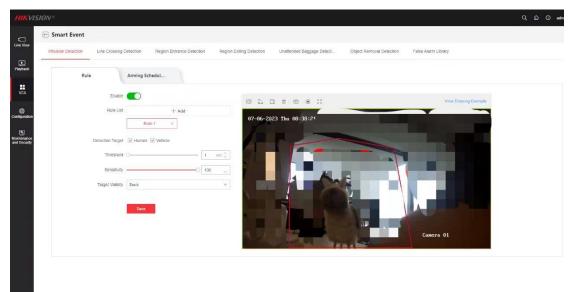

## learning camera

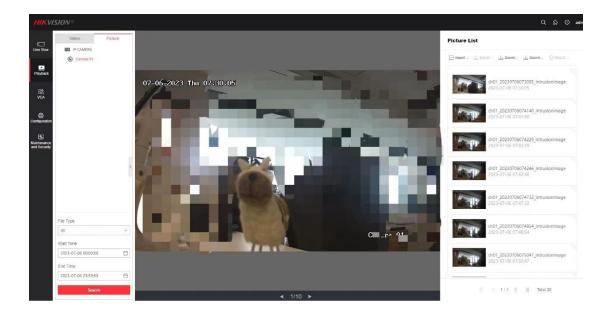

#### 1. Configure events and collect false alarm pictures

Eg: When intrusion is configured and human vehicle classification is enabled, if a false alarm is found,

the non-human target is identified as a human and an alarm is triggered. At this point, the alarm images can

be collected and saved, and then imported into the false alarm library for algorithm learning.

Product:	IPC	Page:	2 of 6		
				0	

#### 2. Import false alarm pictures

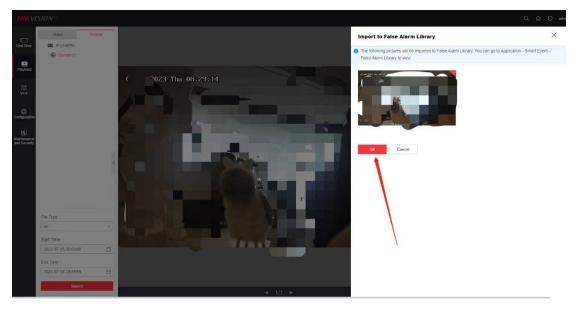

#### 1) Import directly from event capture

[Playback] - [Picture] - [Import]

Select the corresponding picture and click Import to False Alarm Library

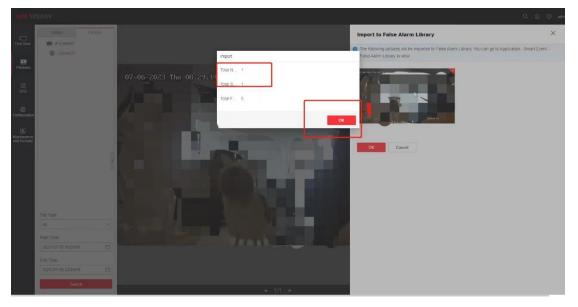

Click OK
