

## DS-TMG521/B

Barrier gates with straight boom pole

DS-TMG52X series barrier gate is applicable to entrance and exit management. It is widely used in road toll station, parking lot, community, enterprise entrance and exit, etc. to manage the entering and exiting of vehicles and record vehicle passing times. It can be controlled automatically via parking lot management system, or via handle, remote controller, buttons, etc.

- DC frequency conversion. The rising and falling speeds can be adjusted independently. The boom pole can rise in high speed to let the vehicle pass quickly.
- The boom pole can fall in low speed to avoid hitting vehicle and pedestrian.
- High protection level. The chassis is produced with 2 mm cold rolled steel sheets in numerically controlled precision.
  The surface is coated with plastic powder, which is anti-UV, antistatic, non-peeling, and non-fading. The dustproof and waterproof level conforms to IP54.
- Multiple control modes. Rising priority. The boom pole can be controlled via relay, remote controller, and software command.
- Multiple anti-hitting modes via induction, IR, pressure wave, etc.
- The boom pole direction is adjustable from left to right, or from right to left.
- Anti-condensation. The electric motor is in low consumption even when the barrier gate is not in working status, which will keep the motor in normal temperature. So even in cold weather, the lube will not be frozen to guarantee the normal running of barrier gate.
- Auto lock. Even when the power is cut off, you can use tool to keep the barrier gate working.
- Embedded with vehicle detector, which can cooperate with the coils to trigger the boom pole to rise when a vehicle is passing and avoid hitting the vehicle.
- Integrated with arrow indicator to show barrier gate status.

# Specification

Barrier Housing	Barrier Housing		
Barrier Housing Material	SECC		
Barrier Housing Thickness	2.0 mm		
Barrier Housing Door Thickness	1.5 mm		
Barrier Housing Color	Orange red		
Boom Pole Installation Height	880 mm		
Body Indicators	Arrow Indictor		
Barrier Gate General			
Matched Boom Pole Type	Folding pole: 1.5 + 1.5 to 2.5 + 2.5 m		
Boom Pole Direction	right by default, direction switchable		
Boom Pole Falling Delay	10 s by default (configurable), min. 10 s (every 10 s followed a gap)		
Number of Cycles	5000000		
Motor Type	DC brushless motor		
Working Voltage	220 VAC		
Remote Controller Frequency	433 MHz		
Current	Max. 1.5 A		
Consumption 300 W			
Rising Speed 2 + 2 to 2 + 2 m: 2 s			
Temperature and Humidity  Temperature: -30 °C to 70 °C (-22 °F to 158 °F)			
Rising Boom Pole for Poweroff Optional, not supported by default			
Falling Speed	+ 2 to 2 + 2 m: 3 s		
Package			
Barrier Housing Dimensions (L ×	Dimensions (L ×		
W×H)	1248 × 486 × 480 mm (49.1 × 19.1 × 18.9 inch)		
Body Weight	59.3 ± 5 kg (130.7 ± 11.0 lb.)		
Interface			
Rising to Limit	1 group		
Falling to Limit	1 group		
Open 1 group			
Close	1 group		
Stop 1 group			
IR/Inductive Loop/Radar	1 group		
RS-485	1 group		
Traffic Signal Light	1 group, external power supply required, max. 220 VAC supported		
LED Indicators	1 group		
Network	1 group (reserved)		
Approval
