HIKVIS	SION [™]		1	ECHNICAL	BULLETIN
Title:	How to use NUUO IP+ Soft	ware with <i>HIK</i>	vision Devices		
Date:	9/13/2011	Version:	1.0	Pages	4
Product:	HIKvision IP Products				
Action Required:	Information Only				

1. NUUO Software Version

The latest software version is recommended. NUUO_IP+_v3.4.1, with Device Pack 1.9 are used in this document.

2. How to Build a Simple Demo

Download NUUO software from NUUO's website. Run the installation file.

After	installa	tion,	start	NUUO	main
consol	e with	user	name	"admin"	and
default password "12345"					

After login, click the "General Setting" button, and choose "Setting".

Action Required:	Information Only				

Go to "Camera" page, click the "Insert" button.

Add a camera by its IP address, http port user name, and password. Select "Hikvision" as the manufacturer, and select a model name from the list.

If the camera has been added successfully, the video will appear. Click the "Go to web interface" to open the Camera's IE web client to setup the camera.

Then, click "Network Service" in "General Setting".

Action Required:	Information Only				

Start the Network Service manually.

Then, start "NUUO Remote Live Viewer". Click "General Settings", then choose "Setting"

Go to "Server" page, add a Server by its IP address, user name and password. The IP address of the Server is the PC where "NUUO main console" is running.

Once the Server is connected, the camera list will be shown on NUUO Remote Live Viewer. Double click a camera icon to view it.

3. Known Issues

None.
