02 LED Video Walls

High Reliability Component

A black grid mask eliminates spatial effect, increases contrast, and improves color rendition, and the gold cable provides impeccable quality and reliability.

Pixel Venus Technology

Increased image quality with enhanced details by Pixel Venus technology.

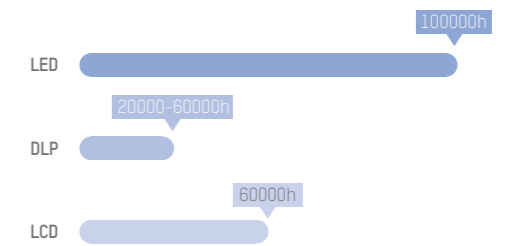

Wide Viewing Angle and Anti-Glare

Amazing wide-angle display up to 170° view. The self-lighting source helps to reduce glare and improve vision.

Long Life and Environment Friendly

Manufactured under industry-leading quality control, the dual-power LED video wall has longer life, lower noise pollution, and less power consumption, making it environment friendly and perfect for 24/7 operation.
