

NEW PRO SERIES NETWORK CAMERAS

with **Smart Hybrid Light** & **ColorVu** technologies

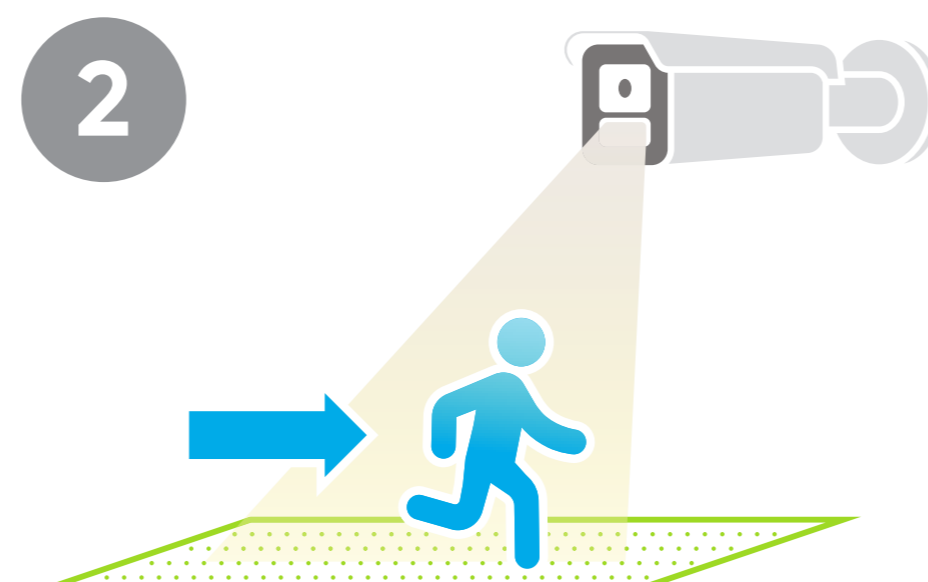

Smart Hybrid Light Technology

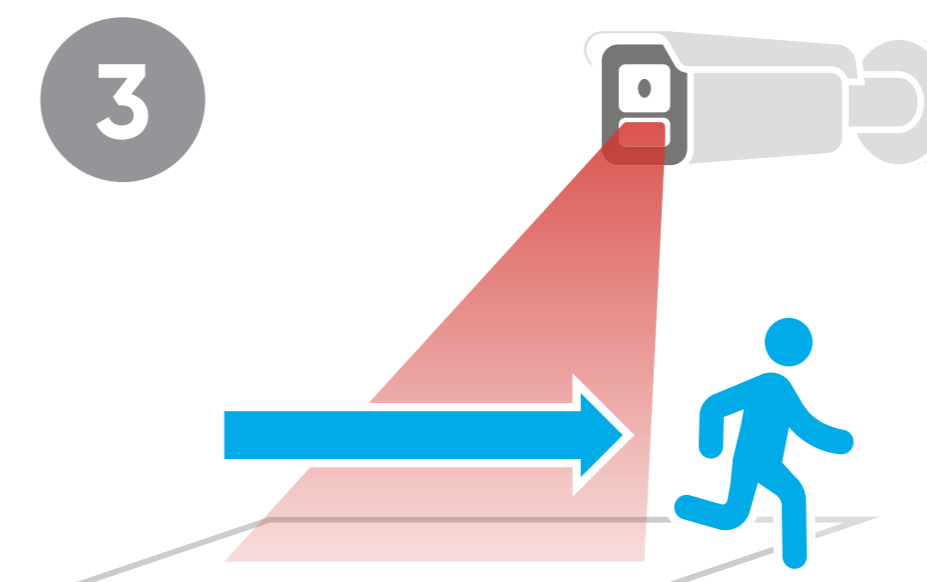

Switches between IR and white light when a **human** or **vehicle** enters the field of view:

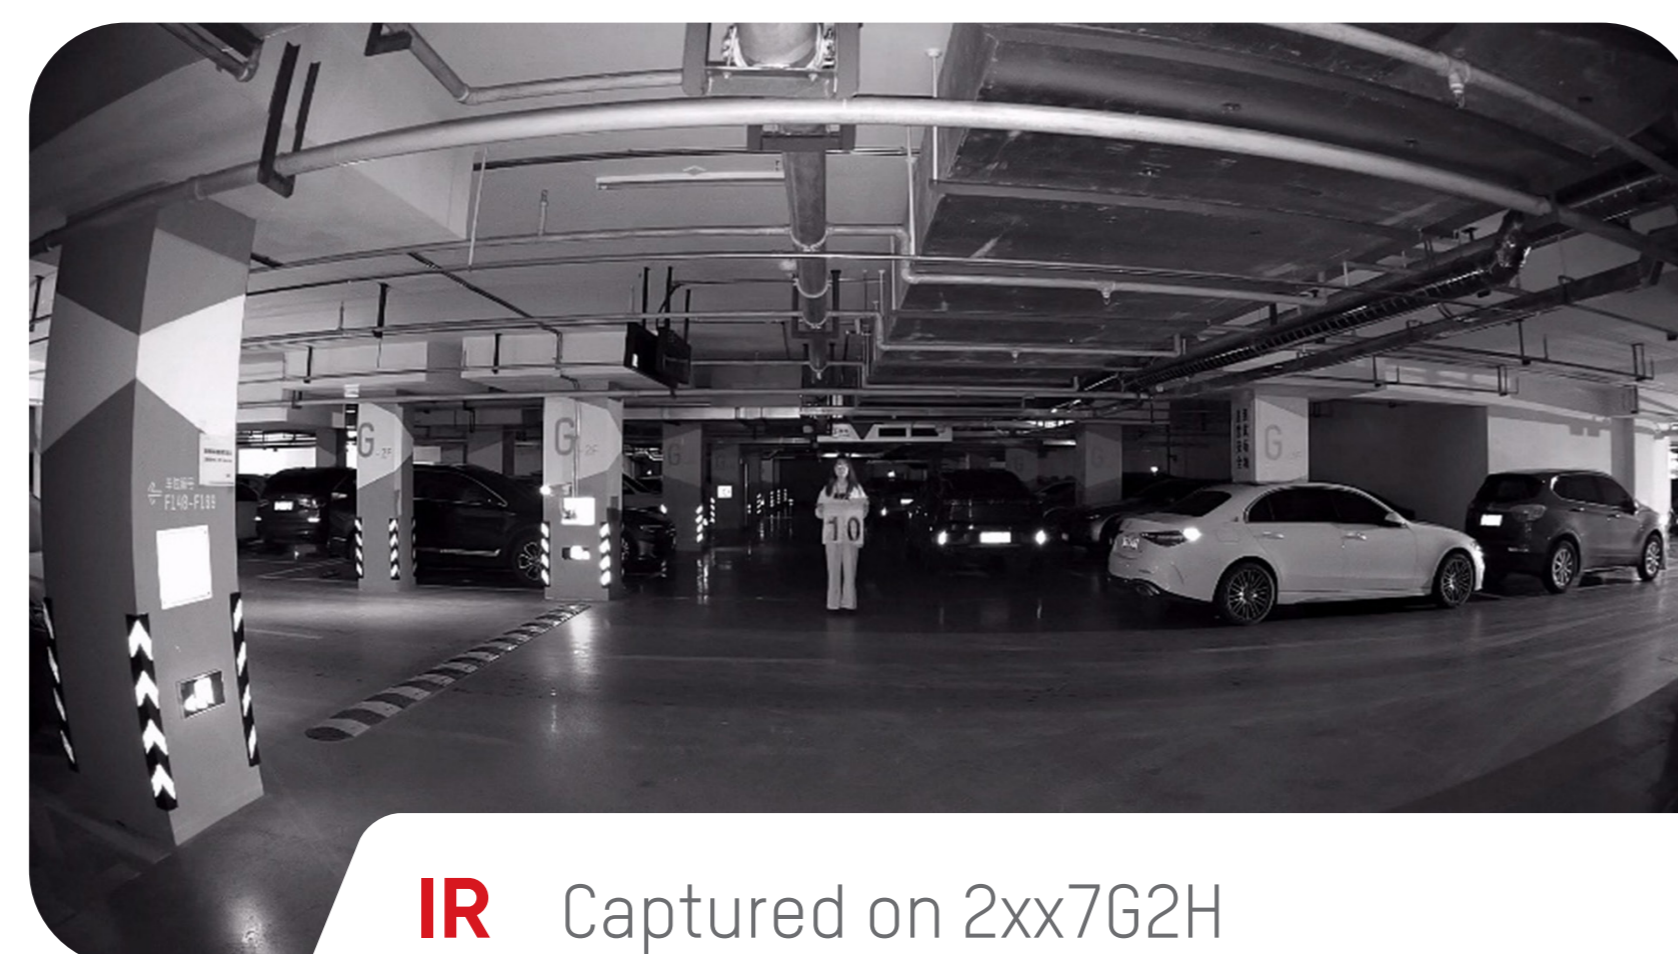

1
IR is switched on when there is no target

2
White light is activated when a person or vehicle enters the target area

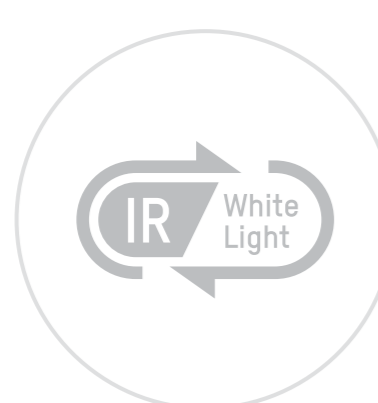

3
Switches back to IR when the person or vehicle leaves the target area

IR Captured on 2xx762H

White Light Captured on 2xx762H
