

## Solution Introduction

Hikvision's Office Security Applications are designed to increase safety and ensure that your office can make the staff comfortable, with confidence and peace of mind.

## Applications

### Gate & Perimeter Perimeter Detection

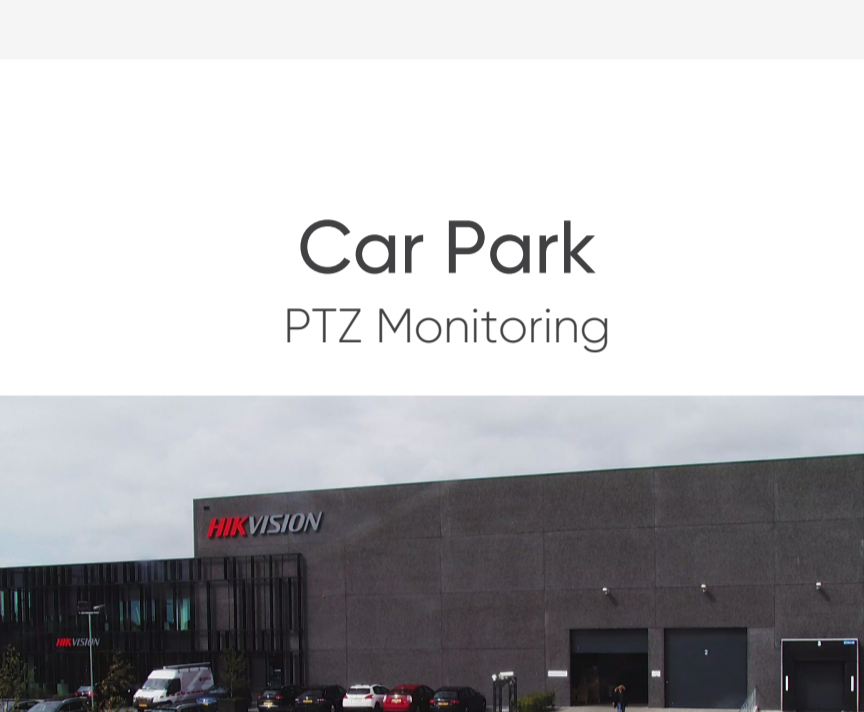

**DeepinMind NVR**

- Receives intrusion and line crossing detection information from cameras, and identifies humans and vehicles in the video to reduce false alarms
- Saves on costs and time compared with conventional CCTV systems

### Entrance & Lobby Intrusion Detection

**AX PRO Intrusion Detection**

AX PRO is a new generation wireless alarm system which supports 2 independent wireless communication channels. This ensures there is no interference across channels and allows super-fast transmission of alarm messages and videos simultaneously. The AX PRO provides an ideal intrusion protection solution, ideal for office facilities. With its minimalist design and superior detector compatibility, it is able to connect a variety of security peripherals to enhance safety.

- Conventional alarm verification: Give user phone call or send guard to end-user site to verify an event.
- New alarm verification: Send 7s recording video via app and email to end-user app or ARC to verify alarm event.

### Entrance & Lobby Advertising Display

**Digital Signage**

- Shows advertisements and release notices
- Easy to install and change than conventional advertising.
- Supports displaying video, animation, images and texts
- Personalised layout with multiple content blocks
- Free management software
- Display schedule can be set by the hour, day, or week

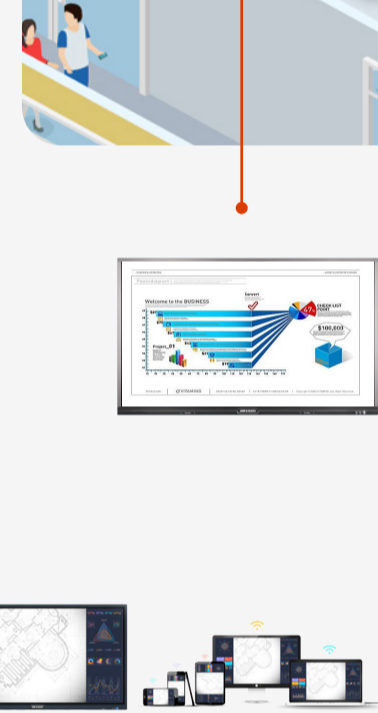

### Entrance & Lobby Intercom

**Intercom**

- Noise suppression and echo cancellation
- Low illumination
- Premium tempered glass
- Aerospace-grade aluminum

### Entrance & Lobby Time & Attendance

**Pro Series Access Control**

Time attendance. Send attendance reports to your email automatically.

- Get attendance report at fingerprint terminal locally or on software remotely
- Access control function, release door on Hik-Connect App remotely
- Time attendance status display (Check in/out, Break out/in, Overtime in/out)
- Elegant appearance with high quality
- Standalone IP based terminal

### Car Park PTZ Monitoring

**Darkfighter PTZ**

Captures bright and clear images even in ultra-low-light environments by combining infrared and visible light

- Processes colour and brightness independently, outputting one full-colour image
- Efficient H.265 technology saves on bandwidth and storage
- Monitor parking spaces to provide evidence in the event of incidents such as vehicle accidents, thefts, etc.
- PTZ cameras can provide a flexible people tracking function to keep a watchful eye over any suspicious individuals.

### Car Park Vehicle Entrance & Exit Management

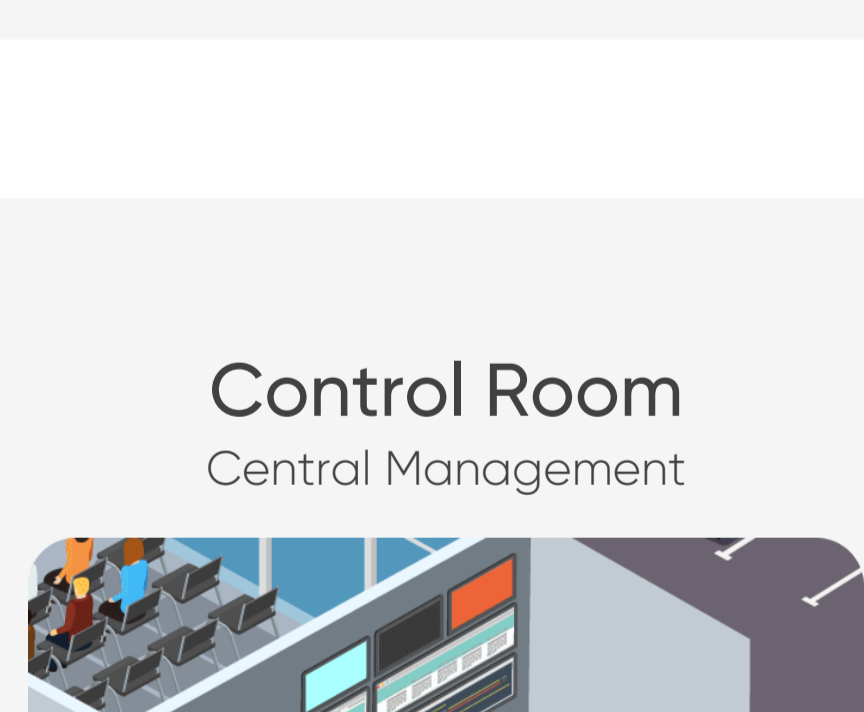

**ANPR Camera**

Controls vehicle entrance and exit via number plate recognition

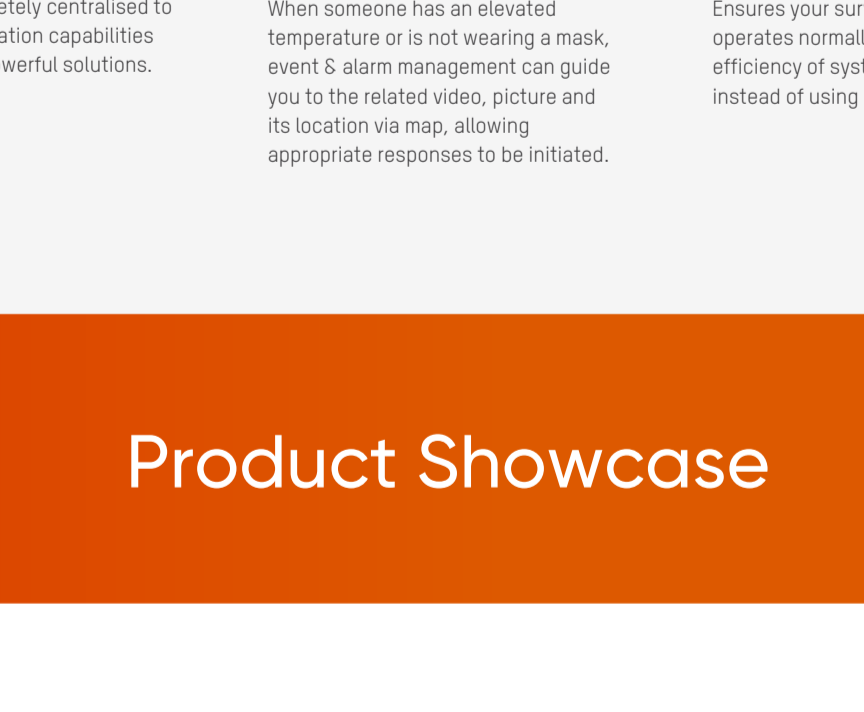

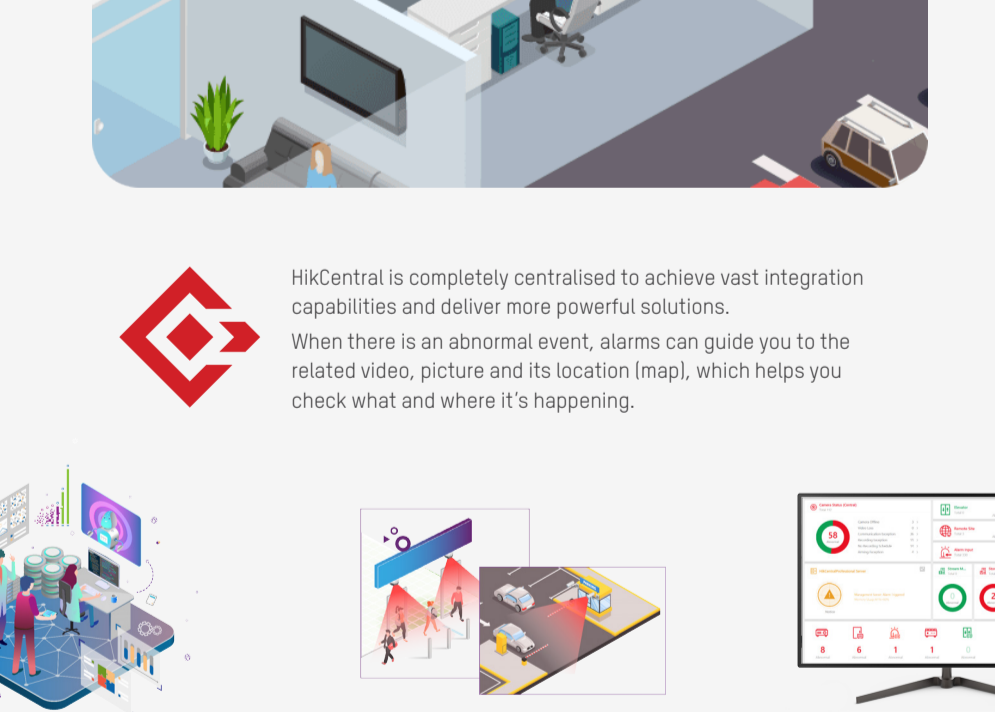

- Number plate recognition and recording
- Automatically releases employee vehicles
- Warning on blacklist vehicles (barrier kept closed)
- Provides reports on passing vehicles

### Meeting Room Smart Meeting

**Interactive Display**

Easy projection, content sharing and flexible comment contributes for a more efficient meeting.

### Meeting Room Panoramic Monitoring

**Fisheye Camera**

One camera installed at the center of the ceiling to cover the whole office

- Various expansion modes to present the panoramic view in conventional way of displaying
- High definition provides good image and details
- Fewer cameras means less installation and reduced labour cost

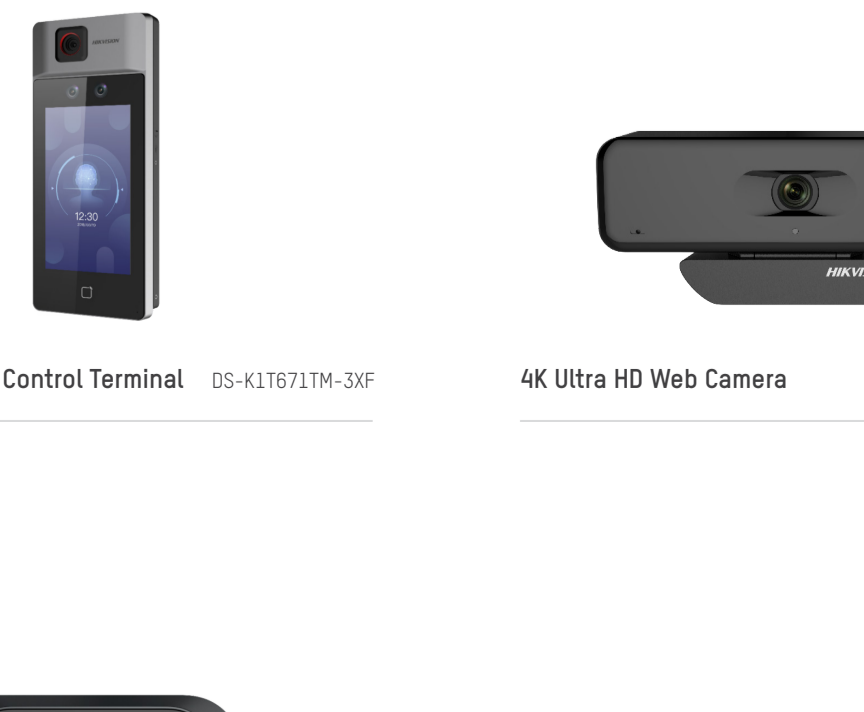

### Meeting Room Web Cameras

**Web Cameras**

- High fidelity stereo pick-up
- Wide-angle view
- Beauty filter
- Self-adaptive brightness
- Compatible for multiple app
- Built-in mic (dual-mic on 4K model)

### Working Area Access Control

**Authorising Access**

With a Hikvision access control system, you can assign permissions for room entry - preventing illegal break-ins, with real-time notifications of unauthorised access attempts. Because the access system can be linked to a camera, you can view video footage of the incident for full situation management.

**MinMoe Access Control Terminal**

- Flexible Deployment - Supports wall mounting and floor standing with mounting pole.
- Visualised Temperature Screening - 7-inch touch screen
- Thermographic Technology - Measures forehead temperature upon face detection.
- High Accuracy of Temperature Screening - Temperature range 30°C to 45°C.
- Mask Detection - Supports face mask wearing alerts and compulsory mask wearing alerts. Temperature screening with mask.

\*In order to obtain accurate temperatures, after the device is powered on, wait for 30 minutes to allow device to warm up.

### Control Room Central Management

HikCentral is completely centralised to achieve vast integration capabilities and deliver more powerful solutions. When there is an abnormal event, alarms can guide you to the related video, picture and its location (map), which helps you check what and where it's happening.

**Central Video Monitoring** HikCentral is completely centralised to achieve vast integration capabilities and deliver more powerful solutions.

**Event & Alarm Management** When someone has an elevated temperature or is not wearing a mask, event & alarm management can guide you to the related video, picture and its location via map, allowing appropriate responses to be initiated.

**Health Monitoring** Ensures your surveillance system operates normally. Improves the efficiency of system maintenance instead of using manual manpower.

## Product Showcase

HikCentral Workstation/32	
License	Max Performance (pre-activated)
HikCentral Workstation/32	32-ch
ANPR Camera	4-ch
Facial Recognition Camera	2-ch
Door (including door station)	8-ch
Indoor Station	8-ch
Alarm Inputs from AX PRO	32-ch
HikCentral-P-Radar-1Unit	2-ch
HikCentral-P-TempS-Mask-Module	Enabled
HikCentral-P-EntranceExit-Module	Enabled
Data Storage	6 months
