SMART HYBRID LIGHT CAMERAS

ACUSENSE + SMART HYBRID LIGHT =
INTELLIGENT LIGHT, COLORFUL NIGHTS

Smart hybrid light activates color images when a motion event has been detected

White light ⇄ IR

4 MP for high-quality imaging

Supports human and vehicle detection

IR Mode

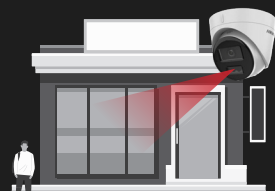

Built-in microphone for real-time audio security

White Light Mode

WHAT ARE SMART HYBRID LIGHT CAMERAS?

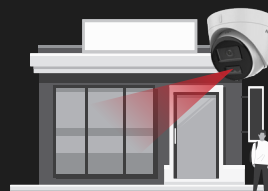

Monitoring Area

When there is no person or vehicle target, IR on, well concealed

Monitoring Area

When the target goes in and is detected, white light turns on to record colorful details, deterring trespassers and lighting the way

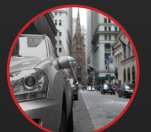

Monitoring Area

After the target leaves, white light turns off and IR turns on, maintaining a well-concealed security camera

IR Mode

White Light Mode

*OFF Mode: All supplemental lights can be turned off

WHY CHOOSE HIKVISION'S SMART HYBRID LIGHT CAMERAS?

- Cost-effective, intelligent, high-performance cameras

- Improve monitoring agility with smart hybrid lighting

- Smart intelligence for various applications

User Challenges

In certain applications, the white light will be continuous, which can be distracting or undesirable

User Expectations

Get clear images with richer details for a better price

Quickly and accurately be notified and record details in full color when a person or vehicle triggers an event
