

## DS-D4429FI-CBF LED Display

- Cabinet is die-casting aluminum integrated.
- Modularized design: LED cabinet consists of frame, power box and modules. For different pixel pitches, they can share same power box and frame.
- Seamless connection: There are four locks totally on each cabinet. They can lock cabinets well for seamless splicing.
- One end of the power cables between two cabinets is fixed. Such design can help to realize fast installation and disassembly.
- Labor saving: One single person can manage installation easily, which can save labor cost.
- Screen can be both inward and outward curve. (optional)
- 90° connection is available. (needs customization)
- Anti-collision design: there are protectors at the four corners of the cabinets, which can help to protect lamps
  effectively during transportation. (needs customization)
- Multi-application scenarios: It is widely used in concerts, events, opera houses, theaters, hotels, auditorium, multifunction hall, lecture hall, high-end entertainment venues, and so forth.

## Specification

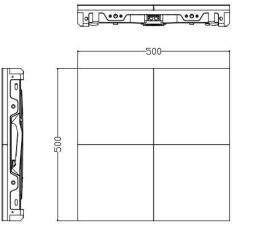

|                           | Model                       | DS-D4429FI-CBF   |
|---------------------------|-----------------------------|--|
| Cabinet                   | Pixel Configuration         | SMD 3-in-1   |
|                           | Pixel Pitch Category        | P2.97  |
|                           | Pixel Pitch                 | 2.97 mm  |
|                           | Modules Component           | 2 × 2  |
