AcuSense Live Guard Cameras

AcuSense

Empowered by deep learning algorithms, AcuSense technology distinguishes people and vehicles from other moving objects.

Accurate alarm for humans and vehicles

False alarms reduced but recorded

Ward off intruders with built-in flashing light and siren (/SL models)

ColorVu Live Guard Cameras

ColorVu AcuSense

With ColorVu technology, cameras can deliver colourful image even in darkness.

Bring 24/7 colourful images even in darkness

Real-time flashing light and audio warnings to deter intruders off

4K cameras bring imaging to ultra-high-definition levels

HeatPro Thermal Cameras

Higher thermal resolution, longer detection range.

Now featuring 256 x 192 thermal resolution

60% longer detection range

New detector options for intrusion detection systems

Simple 3 step of VCA set-up for rules

AX PRO Hub

Smart security control within reach.

A control center of the whole wireless alarm system

The whole alarm system can be easily managed by one mobile app

Supports up to four communication modes

Supports Back-to-Base monitoring using up to 4 communication paths

Video Intercom

Hikvision's Video Intercom products enable more efficient and convenient two-way audio and video verification for entry control.

Touch Screen with 1024 * 600 Resolution

2 MP Camera with 180° Wide Angle

Easy controls & multiple applications

User friendly design
