HiLook All-in-One Camera with Active Colour Deterrence

The HiLook All-in-One cameras can provide real-time active deterrence to protect your property. The alarms can also be simply controlled with one tap on the easy-to-use mobile APP HiLookVision.

Intelligent human & vehicle detection

With AI deep learning technology, HiLook All-in-One cameras can classify human and vehicle targets accurately to reduce false alarms.

Blue & red strobe lights with two-way audio

Ward intruders off with the active blue & red strobe lights and audio alarms to prevent any loss before it happens.

24/7 colourful imaging

The All-in-One camera can capture colourful images with rich details even in dim light providing more useful information.

Conventional camera

All-in-One camera

Smart dual-light Supplement

Automatically switch IR to White light supplement when targets are detected.
