

HIKVISION®

AX Hybrid PRO Series

Expanded flexibility with great performance

Inheriting the elegant design of the original AX PRO and embedded with cutting-edge technologies, the AX Hybrid PRO Series offers the combination of reliable wired protection, while delivering expanded flexibility with seamless wireless integration.

Powered by the Speed-X BUS technology, the AX Hybrid PRO system enables end-users to receive HD photo verification efficiently and covers more complicated scenarios like chain stores, offices, factories and banks.

AX HYBRID PRO SERIES HYBRID ALARM SYSTEM

Simplicity Through Innovation

- **Flexible installation with great performance**

Extendable wired and wireless peripherals.

- **Keep secured with Speed-X BUS Technology**

150 times faster than the traditional transmission technology, HD GIFs verification via wired PIRCAM.

- **24/7 reliability with multiple backups**

Supports video verification and ARCs integration. Compatible with LAN, WIFI, 3/4G, PSTN.

Wired PIRCAM

Detect with PIRCAM

Be secure with detection and video in one! Capturing snapshots as the action happens, stay safe and be informed of an intruder in real-time with live updates; keeping you in the loop.

Wireless Receiver

AX PRO wireless peripherals extendable

Compatible with AX PRO Series wireless peripherals via wireless receivers. Convenient and flexible to design and deploy, the hybrid system detects intrusions, fires and water leaks before disaster strikes, indoors and out, day and night, delivering a higher level of security.
