Hikvision Interactive Flat Panels

Taking Collaboration to the Next Level

Today's Interactive Flat Panels are more popular and more widely used than ever. Hikvision's products take the lead in these flexible, multi-functional solutions with ultra-4K resolution, accurate on-screen writing, built-in whiteboard software, and wireless screen projection, satisfying the needs of a variety of local and remote collaboration and education scenarios.

Providing an all-in-one solution, Hikvision Interactive Flat Panels eliminate the need for multiple tools and equipment found in conventional meetings. Always ready for meetings, workshops, and other applications, these panels make collaboration easy and efficient.

Optical Bonding Screen
For touchscreen accuracy

Pen Slot
Convenient pen holder attached

Matte Powder Coating
Matches the colour of the whole device

Bracket Upgrade
Sleek and elegant, easy to install, and cost-effective

Elegant Design
150 mesh ultra-fine sandblasting (comparable to a laptop's texture)

Wide Colour Spectrum
≥ 90% colour gamut for outstanding display effect

Newly Designed Pen
TPU nib material for fluent writing and better grip
Pick-up Detection
Shows prompts when the pen is picked up

Smart Whiteboard Function

- Max. 20-point IR touch supports multiple pens writing simultaneously
- Supports screenshots to save details
- Mohs level 7 hardness glass: scratch and fingerprint resistant

Seamless Wireless Projection

- Projection via Wi-Fi: The Interactive Flat Panel can be set up as an AP hotspot, or all devices can connect to the same Wi-Fi
- Supports simultaneous split screen projection on up to 4 devices
- Supports two-way projection and reverse control (controlling devices such as laptops, PCs and smartphones from the Interactive Flat Panel through the Hik-Share app)
- Group Display functionality allows the screen display to be duplicated to 2 other panels within the same network
- Main panel screen can be mirrored to up to 8 other device screens within the same network

# Hikvision Interactive Flat Panels

Remote Video Conference

- Hold remote video conferences with another Interactive Flat Panel, or PC/mobile phones
- Abundant accessories available: USB camera (1080p or 4K), omnidirectional microphone
- An OPS module for Windows Operating System is recommened for Interactive Flat Panels as an accessory.

OPS

Flexible Annotation

- Users can readily annotate on any interface with a single click
- Annotation supports colour and thickness adjustments as well as stroke optimization.
- 1 mm writing accuracy
