

TOUCH-FREE, ACCESS IS EASIER THAN EVER

DS-K1T320 Series Access Control Terminal with
Face Recognition Function

MinMoe

Deep learning algorithm
supports face anti-spoofing and
privacy protection

Easy device configuration
supports web configurations via
PC & mobile phone

Multiple authentication methods
including Faces, Fingerprints, Cards, PIN code

Flexible deployment
supports both cloud-based and
on-premise deployment

Powered by Deep Learning Algorithm

Visible light anti-spoofing technology boosts security levels at entry points

Fast Recognition Speed

Recognition Speed

< 0.2s

Accuracy Rate

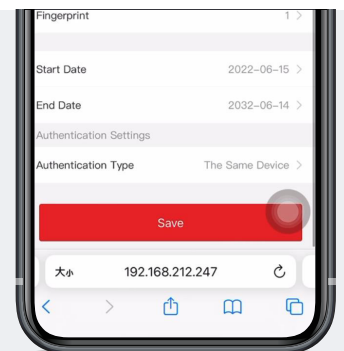

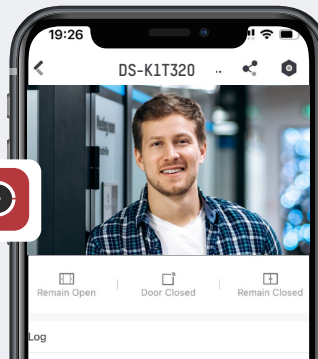

> 99%

Easy Mobile Operation

- Quick and easy registration with various access methods
- Convenient device configuration via web or GUI
- Remote control via mobile app

Hik-Connect App

Mobile Web

DS-K1T320 Series

Face image storage 500

Fingerprint storage capacity (Optional) 1,000

Card types M1 or EM

Card storage capacity 1,000

Event storage capacity 100,000

Connectivity TCP/IP
Wi-Fi (Optional)
RJ45
USB

Application scenarios

Stores

Offices

Factories
