

Comprehensive Alarm System for Your Home

The AXHub connects a full range of wireless security peripherals— sensors, keypads, sirens, and expanders – making the alarm system easy to install and expand. Each area in your home requires unique protections and specific technologies – and our system has it all.

Revolutionary IVaaS (intrusion verification as a service) is also available with our system so users can confirm events remotely.

Compatible List

- 
PIR Detector (Indoor use only)
DS-PD2-P10P-W
 With intelligent sensors, the PIR detector offers quick and accurate detection and an optional pet immunity function. Additional models available.
- 
Dual-tech Detector (Indoor use only)
DS-PD2-D10P-W
 With PIR and microwave technology, the dual-tech detector offers accurate detection in challenging conditions and an optional pet immunity function. Additional models available.
- 
Outdoor Dual-tech Detector (Outdoor use, IP55)
DS-PD2-T10P-WEH
 Delivering reliable performance in fluctuating weather conditions. Additional models available.
- 
Magnetic Contact (Indoor use only)
DS-PD1-MC-WWS
 Helps monitor the status of the door or window; triggers alarm when opened.
- 
Panic Button
DS-PD1-EB-WR
 One push triggers the alarm.
- 
Wireless Keypad
DS-PKA-WLM
 Can be programmed using touch buttons. Device shows status with LED light.
- 
Card Reader (Outdoor use, IP65)
DS-PTA-WL
 Supports arming or disarming system by swiping a card. Waterproof for outdoor use.
- 
Indoor Siren (Indoor use only)
DS-PSG-WI
 A triggered alarm will activate the 110 dB siren and LED light.
- 
Outdoor Siren (Outdoor use, IP65)
DS-PSG-WO
 A triggered alarm will activate the 110 dB siren and LED light.
- 
Water Leak Detector (Indoor use only)
DS-PD1-WL-W(433MHz)
 Wireless flood detector. For indoor use only.
- 
Smoke Detector
DS-PD1-SMK-W(433MHz)
 Protects property and residents from potential fire hazards by timely detection and notification.
- 
Key Fob
DS-19K00-Y(433MHz)
DS-PKFE-5(868MHz)
 Encrypted two-way wireless communication and long wireless range with a panic button.
- 
MIFARE Card
DS-PTS-MF
 Arm or disarm the system by swiping a card.
-
Output Expander
DS-PM-W02(/8)
 This expander helps convert wireless signals to wired signal output. Thus, by connecting the AXHub to a hard-wired output device, you can easily control lights, a garage door, etc.
-
Input Expander
DS-PM-WI
 Expands the AXHub by connecting to third-party hard-wired sensors.

Highlights

- The AXHub is compatible with Onvif cameras, providing video verification for users and monitoring stations to quickly and efficiently confirm events.
- When an alarm is triggered, notifications will be sent to users through various channels, including app notification, E-mail, phone call, and SMS.
- The AXHub is easy to set up with an intuitive, user-friendly interface.
- The system expands to connect up to 32 sensors and 32 outputs, either hard-wired or wireless.
- The AXHub is compatible with the Hik-connect app, making it easier to manage the system and to share devices with your family members and features various authorization levels.
