AX PRO Solution
Intrusion and Video, refocussed.

Designed and produced by the WORLD LEADER in security, it’s time to rethink what your wireless security system can do.

Completely driven from your app, on demand, and with a wide range of products, the AX PRO wireless intruder alarm system delivers video on-board, with our revolutionary and proven wireless protocol for knock out stability.
AX PRO FAMILY

KEY FEATURES
The core building blocks of the AX PRO Solution.

**IVaaS**
Offering a wider view.
The AX PRO incorporates IVaaS, integrating video verification capabilities with 4 camera video buffer ON-BOARD, to show the customer exactly what’s happening, so they can take appropriate action.

**Tri-X**
The future is now.
Fast, reliable and secure, our powerful Tri-X Wireless Technology delivers the next level of security; speeding up installations, while delivering the best experience for both installers and their customers.

**Radio silence...**
Don’t be a victim of jamming or interference! Advanced anti-jamming security on our radio protocol protects the integrity of the system over the long term, providing increased stability and security.

**EN G2**
Be safe in the knowledge your system is fully EN Grade 2 compliant. Building a resilient system tailored to individual needs, without compromising on effectiveness and reliability.

**Design**
We are family!
With the AX PRO, the entire range of security, safety and video products deliver the same stylish, professional and uniform finish with equally outstanding performance.

**Ease of Installation**
The smart installation choice
With faster installation and flexibility, over time the panel auto-adapts to changing ISP or equipment; now that’s clever through features like auto-enrollment and quick-install peripherals, you can do more.

**PIRCAM**
Detect with PIRCAM
Be secure with detection and video in one! Capturing snapshots as the action happens, stay safe and be informed of an intruder in real time with live updates; keeping you in the loop.

App Programming
It’s all in the app
One manufacturer, one interface. With the AX PRO, the power is in your hands; manage multiple systems through the Hik-ProConnect app and web interface, configure devices, control video and monitor. A total system with total control.
DETECTION AND SENSING

A range of detectors and sensors suitable for any residential and small commercial application.

The eyes of the operation
- Battery operated and featuring a 12m range, maintain a secure property and let the wireless PIR-Camera Detector take care of the hard work.

Keep on detecting
- Fully programmable via the app and featuring Smart Environmental Control (SEC) Technology, the Wireless PIR Detector really does have it all under control.

Compact yet robust
- Utilising the latest Tri-X Wireless Technology, the Wireless Magnet Detector is versatile and easily configurable to suit a variety of needs. Plus installation has never been easier.

Small but mighty
- Easily installed and featuring smart remote programming the Wireless Slim Magnetic Contact is capable of up to 1600m long distance radio frequency transmission; impressive for something so small.

Not to be interfered with
- The 24GHz module built into the Wireless Dual-Tech Detector reduces installation time and isn’t affected by interference; now that’s smart.

Ticking multiple boxes
- Encompassing multiple uses for superior security, the Wireless PIR-Glass Break Detector does just that. With a 12m detection range and built in break-glass technology, you’re completely sorted.

SOUND AND ALERT

A range of sounders and panic buttons, raising the alarm.

Be heard when you need it
- Offering a compact design for maximum installation flexibility; delivering an inconspicuous finish that blends in with any property. Don’t worry, it’ll let you know that it’s there!

Freedom with security
- Portable and discreet, raise an alarm with minimal fuss and straight-forward set up of the Wireless Portable Emergency Button.

Protect those that matter most
- Discreet but functional with an IP54 rating, stay protected against danger and water exposure. Providing peace of mind when it’s needed most.

All eyes and ears on me
- Available in red or blue and designed for easy installation, the Wireless External Sounder offers up to 110db alarm volume; be alerted when it matters most.

Discreet has never been so loud!
- Raise an alarm with the Wireless Emergency Button. Fully remote configurable, frequency hopping technology for improved signal transmission and easy installation; a no-brainer for any security needs.

ARMING AND CONTROL

Various arming and control options to suit.

Control your home in one place
- Arming made easy. Control a property and be made aware of any faults with the touch LED display. Giving you the freedom to be in charge of the system.

Ready, set, GO!
- Small and compact, yet fully customisable and robust, the keyfob is the perfect arming/disarming partner. Featuring an LED display for instant feedback on setting functions, trust that the system is ready for action.

Stable, secure and straightforward arming
- Built with modern design and flexibility in mind; arm or disarm the entire system or just separate areas. Providing a stylish Tag Reader with control where it’s needed most.
SOLUTIONS
COMMERCIAL AND RESIDENTIAL
Covering a range of applications from residential homes up to small and mid-size commercial properties, be flexible and offer the AX PRO solution to suit any need.

Detection and sensing solutions for every need.

- Wireless Dual-Tech Detector
- Wireless PIR-Glass Break Detector
- Wireless PIR-Camera Detector
- Wireless Magnet Detector
- Wireless Slim Magnet Detector

Raise the alarm and be heard.

- Wireless Internal Sounder
- Wireless Emergency Button
- Wireless Portable Emergency Button
- Wireless Outdoor Sounder

Control and automate, through one solution.

- Wireless LED Keypad
- Wireless Tag Reader
- Keyfob
- Wall Switch

Expandable and repeatable

- Wireless Repeater
