VIDEO SECURITY SOLUTION

HiLook, Hikvision’s offshoot brand, hits the bullseye for the entry-level video security market, providing very cost-effective, easy-to-use and reliable products and services.

- RELIABLE QUALITY
- EASE OF USE
- ATTRACTIVE PRICE

DIVERSE PRODUCT LINES FOR VARIOUS DEMANDS

HiLook offers an extensive portfolio of products and solutions to meet the wide range of user demands.

**IP Solution:** Network Cameras, Network PTZ Cameras, NVRs

**Turbo HD Solution:**
Turbo HD Cameras, Turbo HD PTZ Cameras, Turbo HD DVRs

**Transmission:** Switches, Coaxial Cables, Network Cables

Expect even more product lines under the HiLook brand in the near future.
OUTSTANDING PRODUCT QUALITY

The superior cost-efficiency of HiLook products does not imply any compromise in product quality, which are guaranteed by:

- Over 80% automated manufacturing
- Options for more durable materials such as full metal
- Comprehensive authoritative certifications of the industry
- Stringent tests for ingress protection, vandal resistance, aging, etc.

SAFE AND SOUND

Ever So Clear

Cameras with resolutions up to 5 MP capture rich details with wider coverage, providing strong evidence for post-event search.

Prolonged HD recordings enabled by the H.265+ smart codec provides more details to find the right evidence users might have forgotten.

Recorded file size for the same amount of time

Integrating audio into CCTV security system is a groundbreaking advancement, providing users with more situational awareness and more evidence after an event. Combining audio and video enhances security and will be universal for the video security industry in the future.

The HiLookVision app allows live viewing from anywhere and at any time via smart phones, and sends timely notifications and alarms to end-users when events occur. Users can also stream the live feed using the HiLookVision PC Client or monitors connected to a DVR or NVR for more details and better viewing experience.

With select NVR models that allow separate video channel output to more than one monitors, you can monitor multiple channels simultaneously and more conveniently.
With HiLook, a professional video security system can be easy. Users can choose and install Wi-Fi products by themselves. The Wi-Fi match function allows automatic connection between cameras and the NVR.

For users preferring non-Wi-Fi products, plug-and-play systems are also available either with PoE models or analog products. Automatic connection is supported by all HiLook products, non-PoE models included.

As a compact solution for the SSMB market, HiLook offers the simplest solutions for security management.

- Simple and concise design with only five necessary models on the dashboard header, making it easier for users to view live, search, and set alarm schedules when needed.

**E-UI: Efficient User Interface for HiLook NVRs and DVRs**

**Forgot a Password? Just Scan and Reset**

Users can reset their NVR or DVR password using the HiLookVision app with a registered account that is bound with their device account. Resetting a password via email is also supported. Both methods are simple and safe.

1. Choose "Verify with HiLookVision"
2. Scan the QR code on the GUI and get a verification code
3. Key in the verification code and reset password

Tips: The HiLookVision account needs to be bound with devices in advance, so we highly recommend binding the device to your HiLookVision app account during activation.
HiLook IP cameras render up to 5 MP, super-HD imaging with an optimized bandwidth via its highly efficient H.265+ video compression. The Wi-Fi models feature flexible, nearly-effortless installation and quick connection for instant view. With no difficult IP setup and only one cable for power and data, the PoE feature connects cameras and NVRs quickly and easily. And the NVRs ensure smooth live view and fluid playback through reliable video recording and management. HiLook is perfect for small business security.

HiLook’s Turbo HD cameras feature plug-and-play capabilities using coaxial cables and render superior imaging in as little light as 0.005 lux. The PIR detection with strobe light and siren, and compatibility with other brands take this solution far beyond its competitors. HiLook Turbo HD DVRs also feature an easy-to-use UI, giving security personnel powerful camera management and recording with excellent compression technology.

With an incredible cost-to-performance ratio, HiLook cables and switches feature the most reliable performance for the price. The high-quality materials used in the network cables and coaxial cables make them extremely flame-resistant. The switches support a generous Power-over-Ethernet (PoE) distance – up to 250 meters – minimizing both network investment and maintenance efforts. Additionally, their 8-core technology guarantees stable power to the switches.
