

HIKVISION®

Professional Entrance & Exit Management

With Hikvision's All-in-One Entrance & Exit Manager

AC 00000

-  All-in-One Design
-  Two-Way Audio
-  High Brightness Display
-  4 MP HD Camera
-  Fast Barrier Gate
-  Smart Supplement Light

Wide Integration

Integrated with various functional devices, including fast barrier gate, smart capture camera, supplement light, LCD display, emergency button, voice prompt, and two-way audio, this all-in-one unit makes wiring and debugging simple and convenient.

Quick Pass

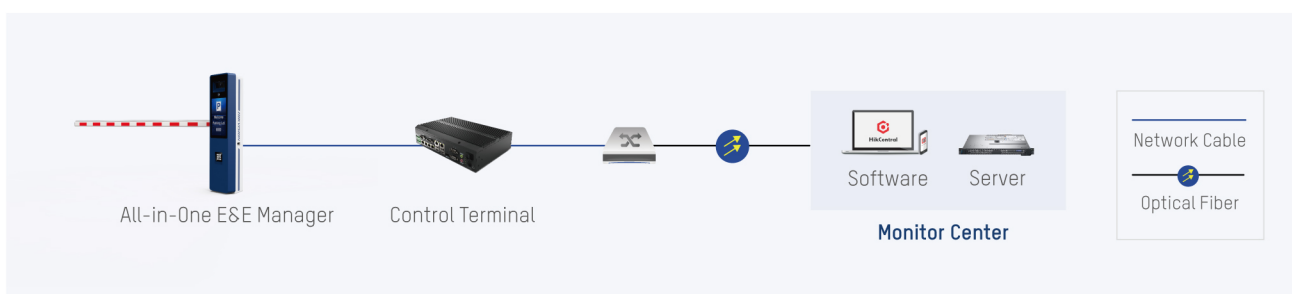

This E&E device integrates with a geared barrier gate, which features high efficiency and stable performance. The boom pole can be set to raise quickly but lower more slowly. This provides both quick and safe passage for drivers.

Intelligent Vehicle Recognition

4 MP HD cameras with high quality imaging support intelligent recognition for vehicle license plate, color, type, and manufacturer. The unit captures vehicle information for entrance and exit security staff with more efficient operation and use of resources.

User-Friendly Display

The 21.5-inch LCD provides convenient access management by showing QR codes for vehicles without license plates to scan. Moreover, it can also display images, video footage, and advertisements.

Application Scenarios

Industrial Parks

Residence Communities

Shopping Malls

Parking Structures

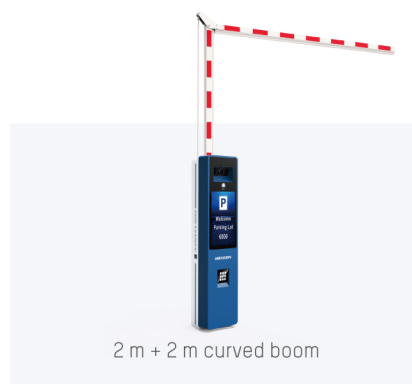

DS-TMC407-EHR(L)(LCD)

3/4 m straight boom

3/4 m fence boom

2 m + 2 m curved boom
