

New SE4C TandemVu PTZ Cameras

Elevate security with
upgraded performance

Smart Linkage

Two-way Audio

Built-in Arrayed
Dual-Mic

Live Guard

Product Highlights

Getting Smart, Linked Views

Smart Linkage technology ensures that when an object is detected in the panorama, the PTZ lens automatically activates to track it

Talking Between Control Room & Site

Dual Mics with noise reduction enable clear **Two-Way Audio**, minimizing unnecessary on-site visits.

Two Camera Appearance Options

The baseline camera model **comes in black or white**, allowing users to choose the color that best fits their environment.

Deterring Trespassers Automatically

Live Guard deters intruders with **built-in sound and strobe-light alarms**, preventing incidents from escalating into losses.

Adjusting the Bullet Lens with Ease

The bullet lens on the top can be **manually tilted from 9° to 21°** to achieve optimal panoramic coverage.

Application Scenarios

The new SE4C TandemVu PTZ Cameras offer powerful features and easy operations for diverse security protection needs.

Residences

Factories

Roads

Warehouses

Note:

Users can select the white or black appearance for DS-2SE4C425MWG1-E/14.
