With Hikvision as your partner, you will stand on a solid foundation.
Hikvision offers a comprehensive Traffic Information Publishing solution to disseminate information to road users. Outdoor guidance screens are often used to announce warm tips, traffic congestion conditions, abnormal incidents, etc., so as to remind drivers of traffic safety and provide alternative routes for smooth road operations.

The visualized dashboard improves decision-making on traffic policies and solutions to congestion charging schemes. The visualized dashboard helps traffic managers make better long-term plans, assisting in tackling traffic issues such as traffic management policies and solutions to congestion charging schemes. The visualized dashboard improves decision-making on traffic policies and solutions. The visualized dashboard features real-time video feeds, and data reports, helping managers know traffic conditions and anomalies to help handle incidents and keep key roads open for up journeys for road users.
