# Comprehensive Alarm System for Your Home

Receive notifications via mobile app with video play back

Receive E-mails with video and alarm event information

Receive phone calls and SMS when alarm is triggered

Arm or disarm the system wherever you are

Camera

Outdoor Siren

Wireless Keypad

Pet Immunity PIR Detector

Outdoor Dual-tech Detector

Indoor Siren

Wireless Alarm Hub

Camera

Card Reader

Magnetic Contact

The AXHub connects a full range of wireless security peripherals– sensors, keypads, sirens, and expanders – making the alarm system easy to install and expand. Each area in your home requires unique protections and specific technologies – and our system has it all.

Revolutionary IVaaS (intrusion verification as a service) is also available with our system so users can confirm events remotely.

Compatible List

PIR Detector (Indoor use only)
DS-PD2-P10P-W
With intelligent sensors, the PIR detector offers quick and accurate detection and an optional pet immunity function. Additional models available.

Dual-tech Detector (Indoor use only)
DS-PD2-D10P-W
With PIR and microwave technology, the dual-tech detector offers accurate detection in challenging conditions and an optional pet immunity function. Additional models available.

Outdoor Dual-tech Detector (Outdoor use, IP55)
DS-PD2-T10P-WEH
Delivering reliable performance in fluctuating weather conditions. Additional models available.

Magnetic Contact (Indoor use only)
**DS-PD1-MC-WWS**
Helps monitor the status of the door or window; triggers alarm when opened.

Panic Button
DS-PD1-EB-WR
One push triggers the alarm.

Wireless Keypad
DS-PKA-WLM
Can be programmed using touch buttons. Device shows status with LED light.

Card Reader (Outdoor use, IP65)
DS-PTA-WL
Supports arming or disarming system by swiping a card. Waterproof for outdoor use.

Indoor Siren (Indoor use only)
DS-PSG-WI
A triggered alarm will activate the 110 dB siren and LED light.

Outdoor Siren (Outdoor use, IP65)
DS-PSG-WO
A triggered alarm will activate the 110 dB siren and LED light.

Water Leak Detector (Indoor use only)
DS-PD1-WL-W(433MHz)
Wireless flood detector. For indoor use only.

Smoke Detector
DS-PD1-SMK-W(433MHz)
Protects property and residents from potential fire hazards by timely detection and notification.

Key Fob
DS-19K00-Y(433MHz)
DS-PKFE-5(868MHz)
Encrypted two-way wireless communication and long wireless range with a panic button.

MIFARE Card
DS-PTS-MF
Arm or disarm the system by swiping a card.

Output Expander
DS-PM-WO2(/8)
This expander helps convert wireless signals to wired signal output. Thus, by connecting the AXHub to a hard-wired output device, you can easily control lights, a garage door, etc.

Input Expander
DS-PM-WI
Expands the AXHub by connecting to third-party hard-wired sensors.

Highlights
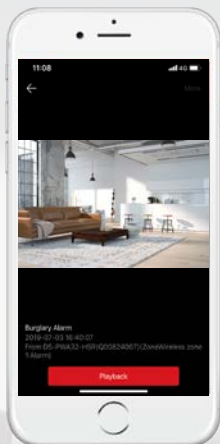

- The AXHub is compatible with Onvif cameras, providing video verification for users and monitoring stations to quickly and efficiently confirm events.
- When an alarm is triggered, notifications will be sent to users through various channels, including app notification, E-mail, phone call, and SMS.
- The AXHub is easy to set up with an intuitive, user-friendly interface.
- The system expands to connect up to 32 sensors and 32 outputs, either hard-wired or wireless.
- The AXHub is compatible with the Hik-connect app, making it easier to manage the system and to share devices with your family members and features various authorization levels.

Wireless Alarm Kit

This kit includes

Wireless Alarm Hub
DS-PWA32-H(G)(S)(R)

Pet Immunity PIR Detector
DS-PD2-P10P-W

Magnetic Contact
DS-PD1-MC-WWS(433MHz)
DS-PD1-MC-WWS(H)(868MHz)

Two-way Key Fob
DS-19K00-Y(433MHz)
DS-PKFE-5(868MHz)

MIFARE Cards (optional)
