PTZ Camera Firmware Version: V5.5.43
Release Note
(2021-02-02)

Firmware Basic Information	Firmware Version:	IPDZLF_G3_EN_STD_5.5.43_201202

Camera Features

1. New Features

- Newly release the below models:

  DS-2SE7C124IW-AE(32X/4)(O-STD)(S5)

  DS-2SE7C144IW-AE(32X/4)(O-STD)(S5)

- Add smart tracking, face capture and smart event in PTZ channel;

- Support Tracking take-over in panorama channel. When the target triggered the rules in Panorama channel and link to smart-tracking in PTZ channel, although the target left panorama channel view, the PTZ still can track the target until the target leave the PTZ view.

- Add new calibration mode: Calibration by the web component to improve the speed of calibration.

- Support under-voltage detection: When the device is under voltage, there will be a 'V' with circle on the OSD. It is used to remind the user that the power supply voltage of the device is insufficient, which may affect the use of some functions or even restart automatically. Users need to increase the power supply voltage of the camera to avoid affecting the normal use of the equipment.

2. Improved Features

- In audio alarm, add hint when upload customized audio documents with the same name.

- Change the location of alarm light from the panorama channel to the PTZ for the model released in 5.5.43 (DS-2SE7C144IW-AE(32X/4)(O-STD)(S5)).(Release model in 5.5.22 does not change.)

- Support configure linkage method of smart event differentiated by channels. The event configured in panorama channel can link to the audible and flash alarm in PTZ channel.

Customer Impact and Recommended Action

This update refers to function/compatibility improvement and will take effect automatically after the

Date of Change. We are very sorry for any inconvenience of use-habit changes caused by this action.
