The content of this manual is furnished for informational use only and it is subject to change without notice.

Added:

- **Support insufficient free spaces alarm. If the number of free spaces is less than the minimum value you set, the linkage actions will be triggered.**
- **Set the retention period for storing the no exit record vehicles information.**
- **Generate vehicles in parking lot report.**
- **Print reports, and support adding remarks for the printed report.**
- **Search and export vehicle information by parking duration.**
- **Export the searching results in batch.**
- **Open a function module in a new display window and multiple function modules can display on different auxiliary screens at the same time.**
- **Highlight the license plate number with the configured vehicle list color when the vehicle triggers vehicle list alarm.**
- **Switch the live view stream to main stream, sub-stream or third stream during live view.**
- **Attach the vehicle picture to the report notification email as desired.**
- **Display the client IP address when searching operation logs and system logs on Control Client.**

Updated:

- **Change Storage Server to Recording Server.**
- **Configure to show or hide the country to which the vehicle is registered.**
- **Replace the repeated license plate number when importing vehicles in batch as needed.**
- **Configure a specific color for the vehicle list. It helps the quick locating of the list that the vehicle belongs to when checking via Control Client.**
- **Configure multiple vehicle lists for each parking lot, and support setting vehicle list's effective time for the parking lot and setting vehicle information in the list.**
- **Update Whitelist and Blacklist Alarm to Vehicle List Alarm, and Whitelist Expired Alarm to Vehicle List Expired Alarm, and support selecting multiple vehicle lists for the alarm.**
- **Update System Whitelist and Blacklist Alarm to System Vehicle List Alarm, and support selecting multiple vehicle lists for the alarm.**
- **Support selecting vehicle list(s) for Forbidden Period Alarm,**

Parking Overstaying Alarm and Parking After Closing Time Alarm as desired, and vehicle(s) in the selected vehicle list(s) can trigger those alarms.

- **Support configuring video storage and video backup.**
- **Support filtering vehicle passing records via vehicle list, and vehicle list is available when the parking type is Vehicle List**

Deleted:

- **Remove the related functions of parking fee.**
