

Title:	DS-PWA32 How to Configure Wireless Keypad to Control Panel	Version:	v1.0	Date:	06/24/2019
Product:	AX Series Wireless Security Control Panel		•	Page:	1 of 7

### Preparation

- 1. AX Series Wireless Security Control Panel, V1.0.4 or above
- 2. Wireless Keypad: DS-PKA-WLM

## **DS-PWA32** How to Configure Wireless Keypad to Control Panel

### 1. Add Keypad to Control Panel

### 1) Add by Hik-connect APP

You should add peripheral to the control panel before performing other operations such as arming or disarming.

Before You Start, Make sure the control panel is disarmed.

### **i** Note

Some control panel models do not support add detectors or wireless devices remotely. You should add them to the control panel directly. For details, see the user manual of the wireless device.

- 1) Tap enter the Scan QR Code page.
- 2) Scan the peripheral's QR code to add the peripheral.
- 3) Select a peripheral type, and create a name for the peripheral.

The added peripheral will be listed in the Zone tab or the Wireless Device tab.
