

No indoor
station needed

ANSWER YOUR DOOR ANYWHERE WITH THE NEW VILLA DOOR STATION

It's a typical problem - someone visits when you are out. But the new Villa Door Station provides a simple solution. When the doorbell rings, you get a call on your mobile, so you won't miss any visitors. You can talk to them through your phone, and a wide angle lens means you can see who's there - so there are no surprises. You can even unlock the door through the phone. Take control of your front door, even remotely, in a simple, convenient and cost-effective way.
