

HikCentral Video guard config

Step 1: Bind the VMS and recorder

Once binded will get the DHCP IP in the server VG network LAN.

Step 2:

Create a User in admin role. (E.g. user: vgadmin, Password: Vg@12345, Activate the user)

Register VMS to VG,

User name and Password

Enter as above (do not use admin), once register to VG, the password will change automatically.

Step 3:

Once each NVR binded, NVR will receive DHCP IP.

Once registered, save the user. Click processing and wait to finish get UUID.
