

## iDS-2CD7086G0(-AP) 8 MP Box Network Camera

Hikvision has been dedicated to develop products with security since established. Hikvision always follows security by design principle and has adopted many methods of security technologies into our product development lifecycle, including terminal security, data security, application security, network security, and privacy protection. In the meantime, the security technologies used by Hikvision are all in compliance with local applicable laws and safety regulations. These security measures could enhance product's cyber security protection capability and protect your devices as well as your data from malicious cyber attacks.

- High quality imaging with 8 MP resolution
- Excellent low-light performance via DarkFighter technology
- Clear imaging against strong back light due to 120 dB WDR technology
- Efficient H.265+ compression technology to save bandwidth and storage
- 5 streams to meet a wide variety of applications
- Built-in microphone for real-time audio security

### Function

#### Face Capture

With embedded deep learning based algorithms, the camera is able to give the best shot of a target face through detecting, capturing, grading and selecting. The camera uses face exposure function to dynamically adjust face area exposure of captures and ensures high face picture quality.

Perimeter Protection

With embedded deep learning based target detection and classification algorithms, the camera carries out the duty of perimeter protection, monitoring the actions of line crossing, intrusion, region entrance, and region exiting. The algorithms greatly filter out the mistaken alarm caused by the interference of leafs, lights, animal, flag, etc. Multi-Target-Type Detection

With the embedded deep learning algorithms, the camera detects and captures the face, human body, vehicle in the specified region.

Queue Management

With embedded deep learning based algorithms, the camera detects queuing-up people number and waiting time of each person. It can generate reports to compare the efficiency of different queuing-ups and display the changing status of one queue, and supports raw data export for further analysis.

**Regional People Counting** 

With the embedded deep learning algorithms, the camera supports people density detection and will upload detection data through scheduled uploading, number of people change uploading and congestion level uploading. It also supports number of people exception detection and waiting time exception detection.

On/Off Duty Detection

With the embedded deep learning algorithms, the camera supports absence detection and on/off duty detection. It can detect the on/off duty status and people number changes in a predefined area.

Heat Map

The camera can generate a graphic description of visits (by calculating amount of people or amount of dwell time) in a configured area.

Multi-Dimension People Counting

With the embedded deep learning algorithms, the camera integrates multiple intelligences. It counts persons and compares them with the built-in face picture library to remove duplicates. It counts persons and reports an alarm simultaneously to achieve both the entrance control and people counting.

Hard Hat Detection

With the embedded deep learning algorithms, the camera detects the persons in the specified region. It detects whether the person is wearing a hard hat, and reports an alarm if not.

| Basic Event              | vehicle)),video tampering alarm,exception (network disconnected, IP address conflict, |  |  |  |
|                          | illegal login, abnormal restart, HDD full, HDD error), video quality diagnosis        |  |  |  |
|                          |   |  |  |  |

| Linkage                     | Upload to FTP/NAS/memory card, notify surveillance center, send email, trigger alarm<br>output, trigger recording, trigger capture, audible warning  |  |  |
|-----------------------------|--|--|--|
| Deep Learning Function      |  |  |  |
| Multi-target-type Detection | <ul> <li>Supports simultaneous detection and capture of human body, face, and vehicle,</li> <li>Gets 7 face features,</li> <li>Gets 13 human body features,</li> <li>Gets 2 vehicle features,</li> <li>Supports counting the number of line crossing targets by type, including human body, non-motor vehicle, motor vehicle,</li> <li>Supports dynamic mosaic mask</li> </ul>   |  |  |
| Face Capture                | Detects up to 120 faces simultaneously, captures up to 40 face pictures per frame<br>simultaneously and uploads up to 10 face pictures per second,<br>Supports swing left and right from -60° to 60°, tilt up and down from -30° to 30°,<br>Uploads face with background and closed-up face pictures,<br>Supports best shot and quick shot for capture mode,<br>Supports dynamic mosaic mask,<br>Gets 7 face features  |  |  |
| Face Comparison             | Up to 10 face libraries. 30,000 faces for each library. 150,000 faces in total, Supports face library encryption   |  |  |
| Perimeter Protection        | Line crossing, intrusion, region entrance, region exiting<br>Support alarm triggering by specified target types (human and vehicle)<br>Support combined event alarm triggering   |  |  |
| People Counting             | <ul> <li>Supports Multi-Dimension People Counting,</li> <li>Supports counting, displaying and exporting the people flow data of entering, exiting</li> <li>and passing by (The data is stored in the flash.),</li> <li>Supports real-time uploading and uploading by statistic cycle,</li> <li>Supports generating daily, weekly, monthly or annually reports,</li> <li>Supports dynamic deduplication based on face picture comparison, and can filter out</li> <li>the target with the same custom face pictures, same attributes, or filter out repeated</li> <li>invalid targets within the set time interval,</li> <li>Supports face feature deduplication,</li> <li>Supports people flow data replenishment</li> </ul>                   |  |  |
| Queue Management            | <ul> <li>Supports up to 8 detection regions, and independent arming schedule and linkage method</li> <li>Supports 2 detection modes: regional people queuing-up, waiting time detection</li> <li>Generates reports to compare the efficiency of different queuing-ups and display the changing status of one queue</li> <li>Supports raw data export for further analysis</li> <li>Supports real-time data uploading and scheduled data uploading</li> <li>Regional people queuing-up: supports 4 alarm trigger conditions, including greater than threshold, less than threshold, equal to threshold, not equal to threshold</li> <li>Waiting time detection: supports 1 alarm trigger condition, including greater than threshold</li> </ul> |  |  |
| Heat Map                    | A graphic description of visits (by calculating amount of people or amount of dwell time) in a configured area.,<br>Two report types are available, space heat map and time heat map line chart.   |  |  |

| Hard Hat Detection              | Detects up to 30 human targets simultaneously   |  |  |  |
|---------------------------------|---|--|--|--|
|                                 | Supports up to 4 shield regions   |  |  |  |
| Metadata                        | Intrusion detection, line crossing detection, region entrance detection, region exiting                               |  |  |  |
|                                 | detection, face capture, multi-target-type detection  |  |  |  |
|                                 | Supports up to 8 detection regions, and independent arming schedule and linkage                                       |  |  |  |
|                                 | method  |  |  |  |
|                                 | Supports 3 detection modes: people density detection, number of people exception                                      |  |  |  |
|                                 | detection, waiting time exception detection   |  |  |  |
|                                 | Supports parameter settings: alarm times per exception, alarm interval, first alarm                                   |  |  |  |
|                                 | delay   |  |  |  |
|                                 | Supports searching real-time number of people   |  |  |  |
| Regional People Counting        | People density detection: supports scheduled uploading, number of people change uploading, congestion level uploading |  |  |  |
|                                 | Number of people exception detection: supports 6 alarm trigger conditions, including                                  |  |  |  |
|                                 | greater than threshold A, less than threshold A, equal to threshold A, not equal to                                   |  |  |  |
|                                 | threshold A, greater than threshold A and less than threshold B, less than threshold A                                |  |  |  |
|                                 | or greater than threshold B (threshold A should be less than threshold B)   |  |  |  |
|                                 | Waiting time exception detection: supports 3 alarm trigger conditions, including                                      |  |  |  |
|                                 | greater than threshold A, less than threshold A, greater than threshold A and less tha                                |  |  |  |
|                                 | threshold B (threshold A should be less than threshold B)   |  |  |  |
|                                 | Supports up to 8 detection regions, and independent arming schedule and linkage                                       |  |  |  |
|                                 | method  |  |  |  |
| On/Off Duty Detection           | Supports 2 detection modes: absence detection, on/off duty detection  |  |  |  |
|                                 | Supports parameter settings: person on duty, absence duration   |  |  |  |
| General                         |   |  |  |  |
|                                 | 12 VDC ± 20%, 0.9 A, max. 10.8 W, two-core terminal block   |  |  |  |
| Power                           | 24 VAC ± 20%, 0.44 A, max. 10.4 W, two-core terminal block  |  |  |  |
|                                 | PoE: IEEE 802.3af, Type 1, Class 3, 36 V to 57 V, 0.33 A to 0.21 A, max. 11.6 W                                       |  |  |  |
| Material                        | Aluminum alloy body   |  |  |  |
| Dimension                       | 142.5 mm × 69.8 mm × 68 mm (5.61" × 2.75" × 2.68")  |  |  |  |
| Package Dimension               | 315 mm × 140 mm × 140 mm (12.4" × 5.51" × 5.51")  |  |  |  |
| Weight Approx. 730 g (1.96 lb.) |   |  |  |  |
| With Package Weight             | Approx. 1115 g (2.99 lb.)   |  |  |  |
| Storage Conditions              | -30 °C to 60 °C (-22 °F to 140 °F). Humidity 95% or less (non-condensing)   |  |  |  |
| Startup and Operating           | -30 °C to 60 °C (-22 °F to 140 °F). Humidity 95% or less (non-condensing)   |  |  |  |
| Conditions                      |   |  |  |  |

## Typical Application

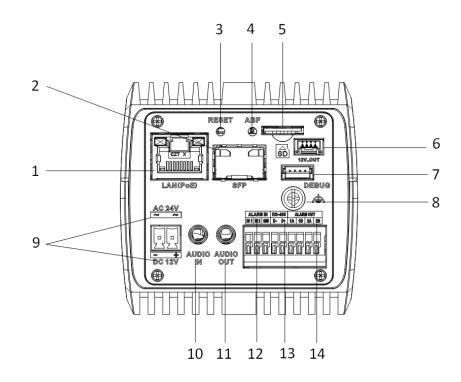

Hikvision products are classified into three levels according to their anti-corrosion performance. Refer to the following description to choose for your using environment.

This model has NO SPECIFIC PROTECTION.

| Level                  | Description  |  |  |
|------------------------|--|--|--|
|                        | Hikvision products at this level are equipped for use in     |  |  |
| Top-level protection   | areas where professional anti-corrosion protection is a      |  |  |
|                        | must. Typical application scenarios include coastlines,      |  |  |
|                        | docks, chemical plants, and more.                            |  |  |
|                        | Hikvision products at this level are equipped for use in     |  |  |
|                        | areas with moderate anti-corrosion demands. Typical          |  |  |
| Moderate protection    | application scenarios include coastal areas about 2          |  |  |
|                        | kilometers (1.24 miles) away from coastlines, as well as     |  |  |
|                        | areas affected by acid rain.                                 |  |  |
| No specific protection | Hikvision products at this level are equipped for use in     |  |  |
| No specific protection | areas where no specific anti-corrosion protection is needed. |  |  |

# Physical Interface

| No. | Description       | No. | Description     |
|-----|-------------------|-----|-----------------|
| 1   | LAN (PoE)         | 8   | GROUND          |
| 2   | SFP               | 9   | AC 24 V/DC 12 V |
| 3   | RESET Button      | 10  | AUDIO IN        |
| 4   | ABF               | 11  | AUDIO OUT       |
| 5   | MicroSD Card Slot | 12  | ALARM IN        |
| 6   | DC 12 V OUT       | 13  | RS-485          |
| 7   | DEBUG             | 14  | ALARM OUT       |

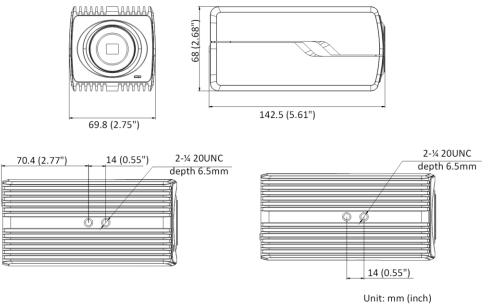

\*Note: The interface varies depending on the model. Please refer to the actual product.
