**Regulatory Information**

**FCC Information**

Please take attention that changes or modification not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

**FCC compliance:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help

**FCC conditions**
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

**EU Conformity Statement**
This product and - if applicable - the supplied accessories too are marked with "CE" and comply therefore with the applicable harmonized European standards listed under the the EMC Directive 2014/30/EU, the RoHS Directive 2011/65/EU.

2012/19/EU (WEEE directive): Products marked with this symbol cannot be disposed of as unsorted municipal waste in the European Union. For proper recycling, return this product to your local supplier upon the purchase of equivalent new equipment, or dispose of it at designated collection points. For more information see: www.recyclethis.info

2006/66/EC and its amendment 2013/56/EU (battery directive): This product contains a battery that cannot be disposed of as unsorted municipal waste in the European Union. See the product documentation for specific battery information. The battery is marked with this symbol, which may include lettering to indicate cadmium (Cd), lead (Pb), or mercury (Hg). For proper recycling, return the battery to your supplier or to a designated collection point. For more information see: www.recyclethis.info.

**Industry Canada ICES-003 Compliance**
This device meets the CAN ICES-3 (B)/NMB-3(B) standards requirements.
Safety Instruction
These instructions are intended to ensure that the user can use the product correctly to avoid danger or property loss.

Laws and Regulations
The device should be used in compliance with local laws, electrical safety regulations, and fire prevention regulations.

Transportation
Keep the device in original or similar packaging while transporting it.

Power Supply
The input voltage should conform to IEC60950-1 standard: SELV (Safety Extra Low Voltage) and the Limited Power Source. Refer to the appropriate documentation for detailed information.
The standard power supply is 12 VDC, PoE (802.3at) or Hi-PoE, please make sure your power supply matches with your camera.
DO NOT connect multiple devices to one power adapter, to avoid overheating or fire hazards caused by overload.
Make sure the plug is properly connected to the power socket.

System Security
The installer and user are responsible for password and security configuration and its settings.

Battery
Improper use or replacement of the battery may result in explosion hazard. Replace with the same or equivalent type only. Dispose of used batteries in conformance with the local codes.

Maintenance
If the product does not work properly, please contact your dealer or the nearest service center. We shall not assume any responsibility for problems caused by unauthorized repair or maintenance.
A few device components (e.g., electrolytic capacitor) require regular replacement. The average lifespan varies, so periodic checking is recommended. Contact your dealer for details.

Cleaning
Please use a soft and dry cloth when clean inside and outside surfaces of the product cover. Do not use alkaline detergents.

Using Environment
When any laser equipment is in use, make sure that the device lens is not exposed to the laser beam, or it may burn out.
Do not expose the device to high electromagnetic radiation or dusty environments.
For indoor-only device, place it in a dry and well-ventilated environment.
Do not aim the lens at the sun or any other bright light.
Make sure the running environment meets the requirement of the device. The operating humidity shall be 95% or less (non-condensing), and the operating temperature is below:
Indoor device: -10°C to 40 °C (14 °F to 104 °F),
Outdoor device: -30 °C to 60 °C (-22 °F to 140 °F), or -H model: -40 °C to 60 °C (-40 °F to 140 °F).
Do not place the camera in extremely hot, cold, dusty or damp locations, and do not expose it to high electromagnetic radiation.

**IR Reflection Prevention**
Dust or grease on the dome cover will cause IR reflection. Please do not remove the dome cover film until the installation is finished. If there is dust or grease on the dome cover, clean the dome cover with clean soft cloth and isopropyl alcohol.
Make sure that there is no reflective surface too close to the camera lens. The IR light from the camera may reflect back into the lens causing reflection.
The foam ring around the lens must be seated flush against the inner surface of the bubble to isolate the lens from the IR LEDs. Fasten the dome cover to camera body so that the foam ring and the dome cover are attached seamlessly.

**Emergency**
If smoke, odor, or noise arises from the device, immediately turn off the power, unplug the power cable, and contact the service center.

**Time Synchronization**
Set up camera time manually for the first time access if the local time is not synchronized with that of the network. Visit the camera via Web browse/client software and go to time settings interface.

**Installation**
Make sure the device is firmly secured to any wall or ceiling mountings. Be sure that there is enough space to install the camera and accessories.
Make sure that the device in the package is in good condition and all the assembly parts are included.
Make sure that the wall is strong enough to withstand at least 4 times the weight of the camera and the mount.
Make sure that the power has been disconnected before you wire, install, or disassemble the device.
