

DS-D6043TL-B Indoor Wall-Mounted Digital Signage

The digital signage is used to broadcast information, release news, advertise products, etc., which is widely applicable to industry of entertainment, finance, traffic, etc.

Feature and Function

Metallic Appearance

Light weight body with integrative design. The front high-transmittance tempered glass provides reliable protection.

Exquisite Image

Industrial A+ interface, auto-coloring and image-enhancing engine.

Variable Materials

Static and dynamic materials, including pictures, audio, video, scrolling subtitle, PDF, webpage, live video, number calling, pop-up pictures, etc.

• Flexible Program Schedule

- Free schedule and district display of multiple materials.
- > Multiple play modes with customization support.

Centralized Management

- Remotely control and manage one or more screens, such as timed startup/shutdown, quick startup/shutdown, brightness/volume timed adjustment, and screenshot preview.
- > Remote program release and local (USB) program update.

Organization Permission

- > 5-level organization available for managing materials, programs, terminals, and users.
- Create custom user with precise permission assignment. Multiple permission templates available.

Multiple Security Safeguards

- > 3-level check of materials, programs, and schedules to prevent mistake release. Screensaver password to protect displaying.
- Encryption of data storage and transmission to avoid data tampering.
- With no default password, users can activate and set initial password to guarantee the password safety.
