

## DS-3E0326P-E/M(C) 100 Mbps PoE Switch

DS-3E0326P-E/M(C) switches are layer 2 100 Mbps PoE switches, providing PoE power supply technology and Gigabit network design on the basis of network access to ensure stable data upload. The switches support long range, port isolation, and PoE watchdog functions.

- **Intelligent PoE Management**  
When the power supply exceeds the limit, PoE ports intelligently manage the power supply, which extends the switch lifetime.
- **Up to 300 m Long Range PoE Transmission**  
The distance between IPCs and switch can reach maximum 300 meters.
- **4/8-Core Adaptive Power Supply with Less Power Loss**  
8-core power supply reduces the power loss on cables.
- **6 kV Surge Protection to Improve Reliability in Harsh Environment**  
The built-in surge protection device protects the switch from the sudden lightning surge in harsh environment.
- **Design for Video Transmission**  
VIP port ensures important data transmission when network congestion occurs.
