This Manual is the property of Hangzhou Hikvision Digital Technology Co., Ltd. or its affiliates (hereinafter referred to as “Hikvision”), and it cannot be reproduced, changed, translated, or distributed, partially or wholly, by any means, without the prior written permission of Hikvision. Unless otherwise expressly stated herein, Hikvision does not make any warranties, guarantees or representations, express or implied, regarding to the Manual, any information contained herein.

About this Manual

The Manual includes instructions for using and managing the Product. Pictures, charts, images and all other information hereinafter are for description and explanation only. The information contained in the Manual is subject to change, without notice, due to firmware updates or other reasons. Please find the latest version of this Manual at the Hikvision website (http://www.hikvision.com/en/).

Please use this Manual with the guidance and assistance of professionals trained in supporting the Product.

Trademarks Acknowledgement

HIKVISION and other Hikvision’s trademarks and logos are the properties of Hikvision in various jurisdictions. Other trademarks and logos mentioned are the properties of their respective owners.

LEGAL DISCLAIMER

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THIS
MANUAL AND THE PRODUCT DESCRIBED, WITH ITS HARDWARE,
SOFTWARE AND FIRMWARE, ARE PROVIDED “AS IS” AND “WITH ALL
FAULTS AND ERRORS”. HIKVISION MAKES NO WARRANTIES,
EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION,
MERCHANTABILITY, SATISFACTORY QUALITY, OR FITNESS FOR A
PARTICULAR PURPOSE. THE USE OF THE PRODUCT BY YOU IS AT
YOUR OWN RISK. IN NO EVENT WILL HIKVISION BE LIABLE TO YOU
FOR ANY SPECIAL, CONSEQUENTIAL, INCIDENTAL, OR INDIRECT
DAMAGES, INCLUDING, AMONG OTHERS, DAMAGES FOR LOSS OF
BUSINESS PROFITS, BUSINESS INTERRUPTION, OR LOSS OF DATA,
CORRUPTION OF SYSTEMS, OR LOSS OF DOCUMENTATION,
WHETHER BASED ON BREACH OF CONTRACT, TORT (INCLUDING
NEGLIGENCE), PRODUCT LIABILITY, OR OTHERWISE, IN CONNECTION
WITH THE USE OF THE PRODUCT, EVEN IF HIKVISION HAS BEEN
ADVISED OF THE POSSIBILITY OF SUCH DAMAGES OR LOSS.
YOU ACKNOWLEDGE THAT THE NATURE OF INTERNET PROVIDES
FOR INHERENT SECURITY RISKS, AND HIKVISION SHALL NOT TAKE
ANY RESPONSIBILITIES FOR ABNORMAL OPERATION, PRIVACY
LEAKAGE OR OTHER DAMAGES RESULTING FROM CYBER-ATTACK,
HACKER ATTACK, VIRUS INFECTION, OR OTHER INTERNET SECURITY
RISKS; HOWEVER, HIKVISION WILL PROVIDE TIMELY TECHNICAL
SUPPORT IF REQUIRED.
YOU AGREE TO USE THIS PRODUCT IN COMPLIANCE WITH ALL
APPLICABLE LAWS, AND YOU ARE SOLELY RESPONSIBLE FOR
ENSURING THAT YOUR USE CONFORMS TO THE APPLICABLE LAW.
ESPECIALLY, YOU ARE RESPONSIBLE, FOR USING THIS PRODUCT IN A
MANNER THAT DOES NOT INFRINGE ON THE RIGHTS OF THIRD
PARTIES, INCLUDING WITHOUT LIMITATION, RIGHTS OF PUBLICITY,
INTELLECTUAL PROPERTY RIGHTS, OR DATA PROTECTION AND OTHER PRIVACY RIGHTS. YOU SHALL NOT USE THIS PRODUCT FOR ANY PROHIBITED END-USES, INCLUDING THE DEVELOPMENT OR PRODUCTION OF WEAPONS OF MASS DESTRUCTION, THE DEVELOPMENT OR PRODUCTION OF CHEMICAL OR BIOLOGICAL WEAPONS, ANY ACTIVITIES IN THE CONTEXT RELATED TO ANY NUCLEAR EXPLOSIVE OR UNSAFE NUCLEAR FUEL-CYCLE, OR IN SUPPORT OF HUMAN RIGHTS ABUSES.

IN THE EVENT OF ANY CONFLICTS BETWEEN THIS MANUAL AND THE APPLICABLE LAW, THE LATER PREVAILS.

Regulatory Information

FCC Information

Please take attention that changes or modification not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

FCC compliance: This equipment has been tested and found to comply with the limits for Class A device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

FCC Conditions
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

**EU Conformity Statement**

This product and - if applicable - the supplied accessories too are marked with "CE" and comply therefore with the applicable harmonized European standards listed under the EMC Directive 2014/30/EU, the RoHS Directive 2011/65/EU.

2012/19/EU (WEEE directive): Products marked with this symbol cannot be disposed of as unsorted municipal waste in the European Union. For proper recycling, return this product to your local supplier upon the purchase of equivalent new equipment, or dispose of it at designated collection points. For more information see: www.recyclethis.info

2006/66/EC (battery directive): This product contains a battery that cannot be disposed of as unsorted municipal waste in the European Union. See the product documentation for specific battery information. The battery is marked with this symbol, which may include lettering to indicate cadmium (Cd), lead (Pb), or mercury (Hg). For proper recycling, return the battery to your supplier or to a designated collection point. For more information see: www.recyclethis.info
Industry Canada ICES-003 Compliance

This device meets the CAN ICES-3 (A)/NMB-3(A) standards requirements.

이 기기는 업무용 환경에서 사용할 목적으로 적합성평가를 받은 기기로서 가정용 환경에서 사용하는 경우 전파간섭의 우려가 있습니다.

Symbol Convention

The symbols that may be found in this document are defined as follows.

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>!</td>
<td>Indicates a hazardous situation which, if not avoided, will or could result in death or serious injury.</td>
</tr>
<tr>
<td>Caution</td>
<td>Indicates a potentially hazardous situation which, if not avoided, could result in equipment damage, data loss, performance degradation, or unexpected results.</td>
</tr>
<tr>
<td>Note</td>
<td>Provides additional information to emphasize or supplement important points of the main text.</td>
</tr>
</tbody>
</table>

Safety Instructions

These instructions are intended to ensure that user can use the product correctly to avoid danger or property loss.
Laws and Regulations

Use of the product must be in strict compliance with the local electrical safety regulations.

Transportation

- Keep the device in original or similar packaging while transporting it.
- Keep all wrappers after unpacking them for future use. In case of any failure occurred, you need to return the device to the factory with the original wrapper. Transportation without the original wrapper may result in damage on the device and the company shall not take any responsibilities.
- DO NOT drop the product or subject it to physical shock. Keep the device away from magnetic interference.

Power Supply

- Please purchase the charger by yourself. Input voltage should meet the Limited Power Source (12 VDC) according to the IEC62368 standard. Please refer to technical specifications for detailed information.
- Make sure the plug is properly connected to the power socket.
- The socket-outlet shall be installed near the equipment and shall be easily accessible.
- DO NOT connect multiple devices to one power adapter, to avoid over-heating or fire hazards caused by overload.
- DO NOT touch the bare metal contacts of the inlets after the circuit breaker is turned off. Electricity still exists.
- + identifies the positive terminal(s) of equipment which is used with, or generates direct current. - identifies the negative
terminal(s) of equipment which is used with, or generates direct current.

Battery

- Risk of explosion if the battery is replaced by an incorrect type. Dispose of used batteries according to the instructions. Il y a risque d'explosion si la batterie est remplacée par une batterie de type incorrect. Mettre au rebut les batteries usagées conformément aux instructions.
- The built-in battery cannot be dismantled. Please contact the manufacture for repair if necessary.
- For long-term storage of the battery, make sure it is fully charged every half year to ensure the battery quality. Otherwise, damage may occur.
- This equipment is not suitable for use in locations where children are likely to be present.
- Improper replacement of the battery with an incorrect type may defeat a safeguard (for example, in the case of some lithium battery types).
- DO NOT dispose of the battery into fire or a hot oven, or mechanically crush or cut the battery, which may result in an explosion.
- DO NOT leave the battery in an extremely high temperature surrounding environment, which may result in an explosion or the leakage of flammable liquid or gas.
- DO NOT subject the battery to extremely low air pressure, which may result in an explosion or the leakage of flammable liquid or gas.

Installation
Quick Start Guide of Thermographic Automation Camera

- Never place the equipment in an unstable location. The equipment may fall, causing serious personal injury or death.
- This equipment is for use only with corresponding brackets. Use with other (carts, stands, or carriers) may result in instability causing injury.

System Security

- You acknowledge that the nature of Internet provides for inherent security risks, and our company shall not take any responsibilities for abnormal operation, privacy leakage or other damages resulting from cyber attack, hacker attack, however, our company will provide timely technical support if required.
- Please enforce the protection for the personal information and the data security as the device may be confronted with the network security problems when it is connected to the Internet. Please contact us when the device might exist network security risks.
- Please understand that you have the responsibility to configure all the passwords and other security settings about the device, and keep your user name and password.

Maintenance

- If the product does not work properly, please contact your dealer or the nearest service center. We shall not assume any responsibility for problems caused by unauthorized repair or maintenance.
- A few device components (e.g., electrolytic capacitor) require regular replacement. The average lifespan varies, so periodic checking is recommended. Contact your dealer for details.
- Wipe the device gently with a clean cloth and a small quantity of
ethanol, if necessary.

● If the equipment is used in a manner not specified by the manufacturer, the protection provided by the device may be impaired.

● To reduce the risk of fire, replace only with the same type and rating of fuse.

● The serial port of the equipment is used for debugging only.

Using Environment

● Make sure the running environment meets the requirement of the device. The operating temperature shall be -10 °C to 50 °C (-14 °F to 122 °F), and the operating humidity shall be 95% or less, no condensing.

● DO NOT expose the device to high electromagnetic radiation or dusty environments.

● DO NOT aim the lens at the sun or any other bright light.

● The equipment shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the equipment.

● No naked flame sources, such as lighted candles, should be placed on the equipment.

● Provide a surge suppressor at the inlet opening of the equipment under special conditions such as the mountain top, iron tower, and forest.

● Burned fingers when handling the parts with symbol 🚞. Wait one-half hour after switching off before handling the parts.

Emergency

● If smoke, odor, or noise arises from the device, immediately turn off the power, unplug the power cable, and contact the service
center.

COMPLIANCE NOTICE: The thermal series products might be subject to export controls in various countries or regions, including without limitation, the United States, European Union, United Kingdom and/or other member countries of the Wassenaar Arrangement. Please consult your professional legal or compliance expert or local government authorities for any necessary export license requirements if you intend to transfer, export, re-export the thermal series products between different countries.

1 Overview

1.1 Camera Description

The Thermographic Automation Network Camera is a camera with function of remote Internet surveillance and video server.

With built-in high sensitivity sensor and passive infrared imaging, the camera is able to measure object’s temperature from far distance at a high accuracy in bad weather. It can also detect image information under circumstances like no light, backlight.

The camera is equipped with WebServer, Internet video server, decoder, and module, which provides remote transfer, preview and configuration modification. It can be easily installed and operated without structure cabling system.

With the advantage of small size, low power consumption and easy integration, it can independently be used, or be integrated into devices like intelligent robots for equipment maintenance, failure detection, industrial process control, etc.

1.2 Main Function

- Multiple palettes modes
- Temperature measurement and temperature alarm
1.3 Camera Appearance

There are two camera types, the appearance of the cameras are shown below:

1.3.1. Type I Camera Appearance

The top view of the camera is shown in Figure below.

![Top View of the Camera](image)

**Figure 1-1 Top View of the Camera**

The rear panel of the camera is shown in Figure below.
1.3.2. Type II Camera Appearance

Type II camera has two types of appearance. The top view of the camera are shown in Figure 1-3.
Figure 1-3 Top View of the Camera

The rear panel of the camera is shown in Figure 1-4
Figure 1-4 Rear Panel
2 Installation

Before you start:

- Make sure the device in the package is in good condition and all the assembly parts are included.
- The standard power supply is 12 VDC, please make sure your power supply matches your camera.
- Make sure all the related equipment is power-off during the installation.
- Check the specification for the installation environment.

2.1 Installation Specification

For fixed lens camera, the auto-focus function, and remote manual focus function are not supported. Select the proper installation site, and proper lens focal length according to the list below.

<table>
<thead>
<tr>
<th>Lens (focal length)</th>
<th>4 mm</th>
<th>6.3 mm</th>
<th>6.5 mm</th>
<th>7 mm</th>
<th>9.7 mm</th>
<th>15 mm</th>
<th>25 mm</th>
</tr>
</thead>
<tbody>
<tr>
<td>Temperature measurement (Object:0.1 × 0.1 m)</td>
<td>4.5 m</td>
<td>7.4 m</td>
<td>7.6 m</td>
<td>8.3 m</td>
<td>11.4 m</td>
<td>17.7 m</td>
<td>29.5 m</td>
</tr>
</tbody>
</table>

There is range limit for detecting, recognizing, and identifying human/vehicle targets.

Table 2-2 Wide Range Coverage
## Quick Start Guide of Thermographic Automation Camera

<table>
<thead>
<tr>
<th>Lens (focal length)</th>
<th>4 mm</th>
<th>6.3 mm</th>
<th>6.5 mm</th>
<th>7 mm</th>
<th>9.7 mm</th>
<th>15 mm</th>
<th>25 mm</th>
</tr>
</thead>
<tbody>
<tr>
<td>Detection range (Vehicles)</td>
<td>361 m</td>
<td>568 m</td>
<td>586 m</td>
<td>631 m</td>
<td>875 m</td>
<td>1353 m</td>
<td>2255 m</td>
</tr>
<tr>
<td>Detection range (Humans)</td>
<td>118 m</td>
<td>185 m</td>
<td>191 m</td>
<td>206 m</td>
<td>285 m</td>
<td>441 m</td>
<td>735 m</td>
</tr>
<tr>
<td>Recognition range (Vehicles)</td>
<td>90 m</td>
<td>142 m</td>
<td>147 m</td>
<td>158 m</td>
<td>219 m</td>
<td>338 m</td>
<td>564 m</td>
</tr>
<tr>
<td>Recognition range (Humans)</td>
<td>29 m</td>
<td>46 m</td>
<td>48 m</td>
<td>51 m</td>
<td>71 m</td>
<td>110 m</td>
<td>184 m</td>
</tr>
<tr>
<td>Identification range (Vehicles)</td>
<td>45 m</td>
<td>71 m</td>
<td>73 m</td>
<td>79 m</td>
<td>109 m</td>
<td>169 m</td>
<td>282 m</td>
</tr>
<tr>
<td>Identification range (Humans)</td>
<td>15 m</td>
<td>23 m</td>
<td>24 m</td>
<td>26 m</td>
<td>36 m</td>
<td>55 m</td>
<td>92 m</td>
</tr>
</tbody>
</table>

Take human as 0.5 m (width) × 1.8 m (height), and limit length is 0.75 m. The vehicle limit length is 2.3 m.

- Detect target: The target should be at least 1.5 pixels on the image.
- Recognize target: The target should be at least 6 pixels on the image.
- Identify target: The target should be at least 12 pixels on the image.
NOTE

This table is for reference only, and the actual detection range may vary according to different camera settings, mounting condition, monitor and so on.
3 Set the Network Camera over the LAN

NOTE

You shall acknowledge that the use of the product with Internet access might be under network security risks. For avoidance of any network attacks and information leakage, please strengthen your own protection. If the product does not work properly, please contact with your dealer or the nearest service center.

3.1 Wiring

Please connect to the camera to the network according to the following figures

![Figure 3-1 Connecting Directly](image1)

Figure 3-1 Connecting Directly

![Figure 3-2 Connecting via a Switch or a Router](image2)

Figure 3-2 Connecting via a Switch or a Router
3.2 Activate the Camera

You are required to activate the camera first by setting a strong password for it before you can use the camera.

Activation via Web Browser, Activation via SADP, and Activation via Client Software are all supported. We will take activation via SADP software and Activation via Web Browser as examples to introduce the camera activation. Please refer to the User Manual of Network Camera for Activation via Client Software.

3.2.1 Activation via Web Browser

Steps:

1. Power on the camera, and connect the camera to the network.
2. Input the IP address into the address bar of the web browser, and click Enter to enter the activation interface.

NOTE

- The default IP address of the camera is 192.168.1.64.
- For the camera enables the DHCP by default, you need to activate the camera via SADP software and search the IP address.
2. Create a password and input the password into the password field.

⚠️ **WARNING**

*We highly recommend you create a strong password of your own choosing (using a minimum of 8 characters, including upper case letters, lower case letters, numbers, and special characters) in order to increase the security of your product. And we recommend you reset your password regularly, especially in the high security system, resetting the password monthly or weekly can better protect your product.*

3. Confirm the password.
4. Click **OK**.

### 3.2.2 Activation via SADP Software

SADP software is used for detecting the online device, activating the camera, and resetting the password.

Get the SADP software from the supplied disk or the official website, and install the SADP according to the prompts. Follow the steps to
activate the camera, please refer to the User Manual of Network Camera for other two activation methods.

**Steps:**

1. Run the SADP software to search the online devices.
2. Check the device status from the device list, and select the inactive device.

![SADP Interface]

**Figure 3-4 SADP Interface**

**NOTE**

The SADP software supports activating the camera in batch. Please refer to the user manual of SADP software for details.

3. Input the password in the password field, and confirm it.

**WARNING**

*We highly recommend you create a strong password of your own choosing (using a minimum of 8 characters, including upper case letters, lower case letters, numbers, and special characters) in order*
to increase the security of your product. And we recommend you reset your password regularly, especially in the high security system, resetting the password monthly or weekly can better protect your product.

4. Click **OK**.

   You can check whether the activation is completed on the popup window. If activation failed, please make sure that the password meets the requirement and try again.

### 3.3 Modify the IP Address

**Purpose:**

To view and configure the camera via LAN (Local Area Network), you need to connect the network camera in the same subnet with your PC. Then, install the SADP software or client software to search and change the IP of network camera. We will take modifying the IP Address via SADP software as an example to introduce the IP address modification.

**Steps:**

1. Run the SADP software.
2. Select an active device.

   **NOTE**

   Please refer to chapter 3.2 to activate the camera if the camera is inactive.

3. Change the device IP address to the same subnet with your computer by either modifying the IP address manually or checking Enable DHCP.
4. Input the password to activate your IP address modification. The batch IP address modification is supported by the SADP; please refer to the User Manual of SADP for details.
4 Access via Web Browser

System Requirement:
Operating System: Microsoft Windows XP SP1 and above version
CPU: 2.0 GHz or higher
RAM: 1G or higher
Display: 1024×768 resolution or higher
Web Browser: Internet Explorer 8.0 and above version, Apple Safari 5.0.2 and above version, Mozilla Firefox 5.0 and above version and Google Chrome 18 and above version

Steps:
1. Open the web browser.
2. In the browser address bar, input the IP address of the network camera, and press Enter.

   ![NOTE]
   - The default IP address is 192.168.1.64.
   - If the camera is not activated, please activate the camera first.

3. Input the user name and password.
   The admin user should configure the device accounts and user/operator permissions properly. Delete the unnecessary accounts and user/operator permissions.

   ![NOTE]
   The device IP address gets locked if the admin user performs 7 failed password attempts (5 attempts for the user/operator).

4. Click Login.
5. Install the plug-in before viewing the live video and managing the camera. Please follow the installation prompts to install the plug-in.

![Login Interface](image)

**Figure 3-6 Login Interface**

**i** **NOTE**

You may have to close the web browser to finish the installation of the plug-in.

![Download Plug-in](image)

**Figure 3-7 Download Plug-in**

6. Reopen the web browser after the installation of the plug-in and repeat steps 2-4 to login.

**i** **NOTE**
Quick Start Guide of Thermographic Automation Camera

For detailed instructions of further configuration, please refer to the user manual of network camera.
Appendix

Frequently Asked Questions (FAQ)

Device Running Error

Question:
Why the device fails to start up or reboot?

Answer:
- Examine the power supply of the positioning system and see whether it meets the requirements.
- Select the power supply as close as possible.
- Examine the power cord and see whether it meets the requirements.

Device Upgrading

Question:
Why the device fails to upgrade?

Answer:
- Examine if the device upgrading fails because of the poor network.
- Examine if the upgrading program matches with the device type.

Others

Question:
The device live view is vague. How to adjust it?

Answer:
Examine if you removed the protective film.
Examine if the lens is dirty or not.
Examine if any obstruction is nearby, e.g. spider web.

Question:
Why live view fails to connect with good network?

Answer:
Examine if the IE plug-in is well installed. Change the Website Blocker settings if necessary.
For cross-domain routing, enable the UPnP of device, or set manual mapping to port No. 80, 8000, or 554.
Examine if the live view channel amount exceeds the upper limit.
Examine the network bandwidth.

Question:
Why focus fails when you test outdoor device in indoor situation?

Answer:
Restore the device to default settings.
Adjust the **Min. Focusing Distance** in Configuration > Image> Display Settings > Focus.
