

DS-PMA-PGPRS

GPRS Module

Overview

DS-PMA-PGPRS is a series of GPRS module that is used to implement GPRS communication on the DS-19AXX series network control panel. It uploads the alarm report made by control panel to the central alarm monitoring station.

Appearance

Features

- Supports GPRS wireless network
- Can be installed in the chassis of DS-19AXX series control panel

Specification

DS-PMA-PGPRS		
Wireless Network	Interface	1, alarm report upload
	Standard	GPRS
	UIM Card Slot	1
	MCX Antenna Interface	1
Network Management	Network Protocol	NAL2300
External Interface	Control Panel Interface	1 For connecting to DS-19AXX control panel
Others	Consumption	8W (Max.)
	Operation Temperature	-10°C to +55°C
	Operation Humidity	10% to 90%
	Chassis	None
	Dimension (mm)	70*30*27
	Weight (g)	400
