## Before You Start

Please read the following contents in this section carefully before looking up the target device models in this document.

### About This Document

HikCentral Professional supports a wide range of cameras, DVRs, NVRs, access control devices, security control devices, etc. To find cameras and devices that are supported by HikCentral Professional, refer to the contents in this document and search for the models you want.

The information in the list is provided by HIKVISION for general reference, absolutely without warranty and at the user's own risk. Users are strongly encouraged to validate their final edge device choice. HikCentral Professional provides different licenses with different functions. When reviewing device support and compatibility, please take note of the license type.

If you want to learn about the supported functions of the newly compatible devices in the new HikCentral Professional, please refer to the *What's New* document for details. Please refer to the *User Manual* for more detailed instructions about these functions.

### About Firmware Version

The firmware version is the version of the software on the device.

1. For the following devices, no detailed compatible firmware versions are required.
  - Network cameras of 1-line, 2-line, 3-line, 4-line, and 5-line: These cameras of firmware versions released in year 2017 and later are compatible to HikCentral Professional, and support basic functions such as live view, playback, event and alarm, etc. Refer to [Network Camera](#) for detailed compatible models.
  - Display units: The display units of all the versions are compatible. Refer to [Display Unit](#) for detailed compatible models.
2. For other devices, if no compatible firmware version provided, it means the devices released before HikCentral Professional V2.1 (released in June, 2021) are all compatible. The devices the firmware of which released after year 2017 are recommended.
3. We will provide you the compatible firmware versions of the newly supported devices from HikCentral Professional V2.1 (released in June, 2021).
4. Please read the notes (if any) after the device model or firmware version, which indicate the special restrictions.
