EFFICIENCY AND INTELLIGENCE
AT THE GATE
SMART ANPR SOLUTION

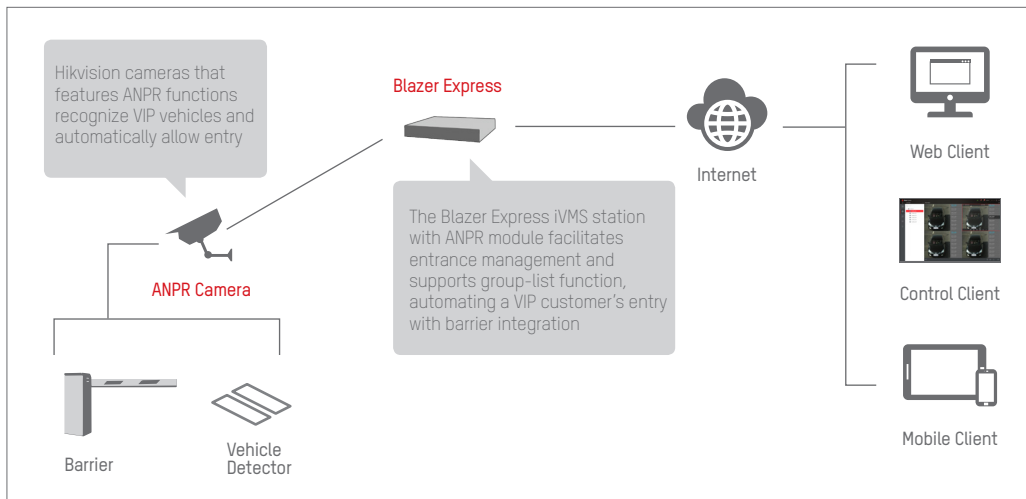

Smart ANPR Solution

Whether it's used in law enforcement, customer service, or any other vehicle tracking purpose, automatic number plate recognition (ANPR) has become an increasingly helpful tool in video surveillance. Security personnel at private parking areas, museums, stadiums, hospitals, and special event venues of various kinds—and all around the world—are placing a high value on intelligent parking solutions. But when considering the available systems on the market, how do you choose the right one?

With the largest R&D department in the security industry, Hikvision has become the number one solution provider worldwide. And with success stories in every vertical market around the world, Hikvision's Smart ANPR Solution carries the legacy of success into every application.

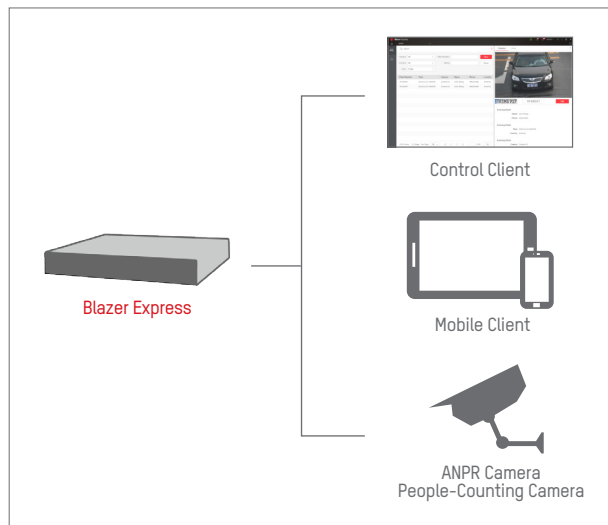

Hikvision's Smart ANPR Solution features DarkFighter ultra-low light technology along with the Blazer Express iVMS station—a powerful and complete central management machine in a single unit. And with simple, intuitive controls, such as the E-map in the live view windows for quick system awareness, automatic barrier controls, alarm triggering, easy reporting, and more, this Smart solution for vehicle management has everything a complete solution needs. Continue reading for more details on this great system, from Hikvision.

How It Works?

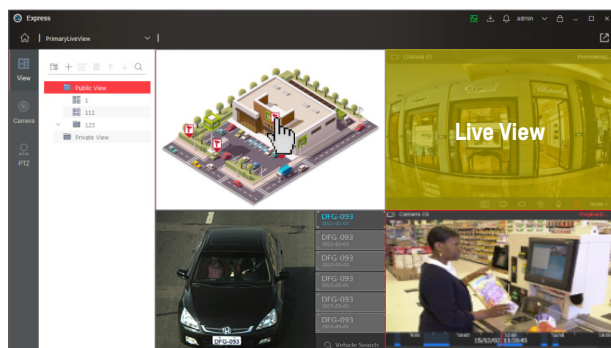

Capturing high-definition footage of vehicles is critical for business operations at locations such as gas stations and shopping areas. Such video is crucial for post-event investigation. Hikvision provides an easy and economic ANPR solution for this essential application.

An ANPR Solution That's Easy to Set Up

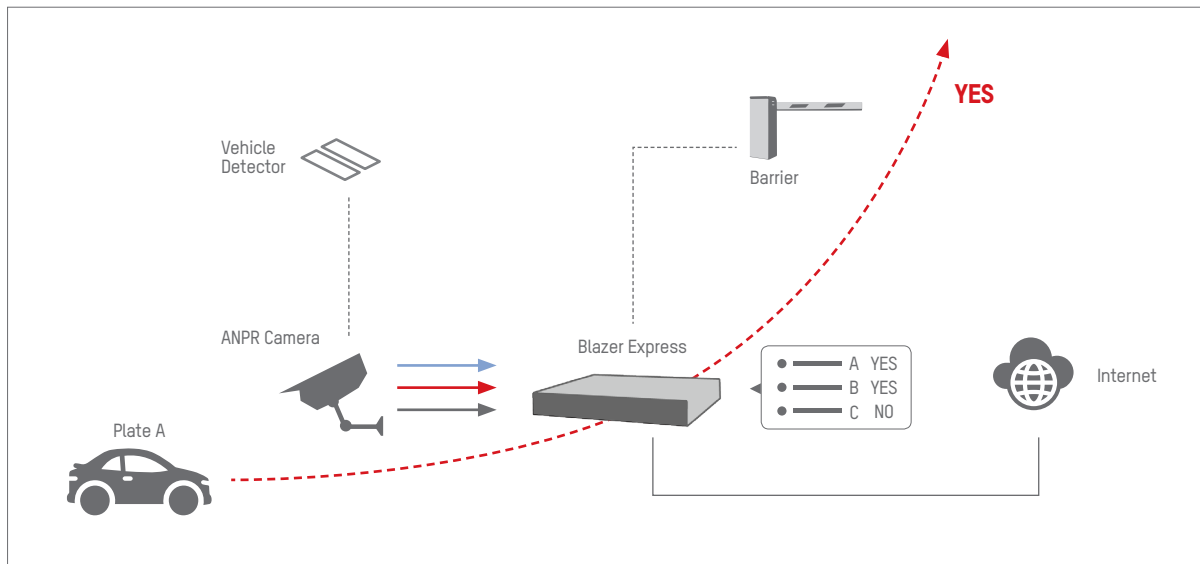

- Cameras are plug-and-play ready with on-board POE support
- Blazer automatically discovers cameras and assigns IP direction
- Default recording schedules are configurable
- Embedded client support and GPU decoding support creates high efficiency local monitoring
- Blazer transmits signal via HDMI or VGA
- Control client / Web client / Mobile client

Easy to Use E-Map Function

- E-map in the live view windows provides quick and easy system awareness
- Camera in E-map can be dragged-and-dropped into live view windows
- Camera icon in the E-map will turn red when alarm triggers for rapid warnings

Easy Entrance Management

- Automatic barrier can be opened for whitelisted vehicles, greatly reducing human effort and expediting entrance efficiency
- The barrier can remain in place and trigger an alarm for blacklisted vehicles

Easy ANPR Live View, Search, and Reporting

- Real-time plate number recognition and display
- Vehicle information history based on plate number can be searched for investigation purposes

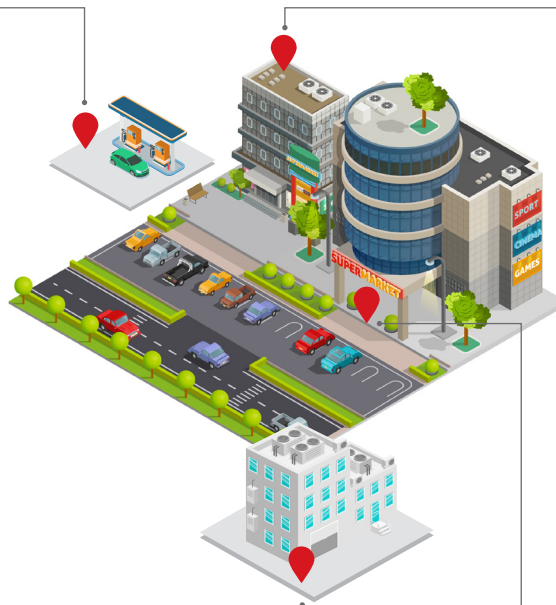

- ANPR reporting for vehicle entrance and exit traffic
- Reports are easily exported

Typical Application

Gas Stations

Residential Parking Areas

Office Parking Areas

Shopping Mall Parking

2MP Low Light Smart Bullet ANPR Camera

DS-2CD4A26FWD-IZS/P
(2.8 – 12 mm)

- DarkFighter ultra-low light License Plate Recognition* technology
- 1 / 1.8" progressive scan CMOS sensor
- Full HD 1080p, up to 60 fps
- 120 dB WDR
- Full set of smart features
- Up to 50 m IR range
- Up to 128 GB on-board storage
- Motorized lens with Smart Focus

*Customization process required based on local ANPR algorithm adaption

iVMS Station

Blazer Express

- Single interface manages NVRs, DVRs, & IPCs
- Interactive live view with embedded E-map
- ANPR and POS integration support
- 16/32 Camera channels supported
- 2 or 4 HDD available
- 8 or 16 PoE port options
- 8 POS connection licenses included
- 4 ANPR camera licenses included (requires Hikvision ANPR camera)
