Full-screen detection by default

Configurable and flexible detection boxes

Human/ Vehicle Perimeter Protection For All Analog Channels

Smart VCA
Smart Playback

You can skip ordinary stream, and only play back human/vehicle events!

Product Showcase

MODEL	IDS-E04HUHI-B
Storage	960 GB
Recording Capacity	4-ch 3K/ 5 MP @ 12 fps about 2 weeks
Power Consumption	7.5 W (max)
Basic Features	<ul style="list-style-type: none"> Human & Vehicle Classification - Motion Detection 2.0 & Smart VCA HDTVI/ AHD/CVI /CVBS/2* IP Video Input H.265 & Scene-Adaptive Bitrate Control
Warranty	3 Years

Eco Friendly Design

Low Power Consumption

Annual Energy Consumption Equals

Smart Fan Design And Quieter During Operation

Smart Fan activates only when the eDVR working environment temperature reaches 30°C.

Packaging Materials Are Fully Recycled

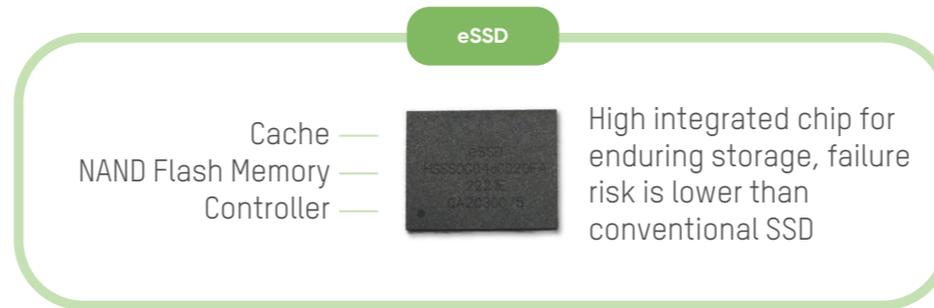

Hikvision uses biodegradable materials, which are better for the environment.

Embedded SSD Technology

Good Impact Resistance With High Durability

With its embedded solid state drive (SSD), the Hikvision's eDVR runs strong & steady, 24/7. It is immune to physical shocks or impacts to keep your data safe.

Durable Storage

H.265-Based Scene-Adaptive Bitrate Control

Hikvision equips its eDVRs with smart coding to ensure sufficient storage and high-quality video compression.

Day 1

Day 2

Day 3

...

Day 14

The 1TB storage is pre-allocated into about 14 days, with minor differences in each day according to actual scene and events.

Easy To Set Up And Use

151W x 121D x 46H mm

Miniature size:

- More flexible installation
- Wall mount or on the desk
- Lower warehouse and shipping costs
- Can be easily hidden to minimize the risk of damage

Integrated structural design:

- Shock-resistant and stability
- Doesn't require unscrewing, just buy and apply
