

Hikvision Hotel Solution is a package designed to increase safety and ensure that your hotel can welcome guests in comfort, with confidence and peace of mind.

Solution Introduction for Hotels.

Hotel Entrance - Intelligent video beyond surveillance.

TOUCHLESS TEMPERATURE SCREENING

TOUCHLESS MASK DETECTION

- Thermographic camera detects a guest's skin surface temperature without the need for physical contact, improving the customer experience and enhancing operational efficiency.

- Highly accurate mask detection camera functions identify whether an individual is wearing a mask and prompt them to do so if required.

DEEPINVIEW

Hotel Reception - VIP Recognition.

- Hikvision's temperature DeepinView cameras are designed to detect human faces and carry out facial comparisons.

This service allows VIPs to be identified as soon as they arrive, and provided with exclusive, first-class customer experience.

Hikvision's monitoring tablet helps reception staff to monitor for elevated temperatures in real time.

Hotel Restaurant & Gym - Density Control.

REAL-TIME DISPLAY

- Hikvision's customer density control solution provides real-time guidance for queueing customers with clear visible and audible announcements.

ENHANCED REPORTING

- Daily, weekly, and monthly customer flow reports contribute to improved personnel scheduling and effectively enhance marketing strategies.

Hotel Corridor - Dual Direction Monitoring.

- Hikvision provides a dual-direction PanoVu camera with two adjustable lenses, which can monitor different directions simultaneously, meaning less cabling is required and installation is easy.

Hotel Car Park - ANPR Technology.

DEEP LEARNING ALGORITHMS

- Time-based vehicle number analysis shows how busy the car park is at different times.

- Vehicle overstaying alarms provide real-time notifications to staff when any vehicle has parked longer than permitted.
- The vehicle parking duration report shows how long each vehicle has parked. Users can define specific time periods and filter results, providing precise, useful data.

Hotel Control Room - Access Control & Central Management.

SECURE PERMISSIONS

- With the Hikvision access control system, you can easily assign permissions so that only the relevant authorized staff can enter the control room.

CENTRAL VIDEO MONITORING

- HikCentral is completely centralised to achieve vast integration capabilities and deliver more powerful solutions.

BUSINESS INTELLIGENCE

- People Counting

- Temperature Analysis

- Vehicle Analysis

The BI dashboard provides a flexible, customized tabular viewing interface to provide decision makers with powerful business analysis reports.

MULTI-CHANNEL NOTIFICATIONS

- View unauthorized and abnormal access records in _ alarm center.
- Video linkage & door operations via Control Client & -Mobile Client.

EVENT & ALARM MANAGEMENT

-When someone exhibits an elevated temperature or is not wearing a mask, event δ alarm management can guide the operator to the related video, incident picture and its map location, enabling rapid response times.
