

3K & 4K IN FULL COLOUR 24/7 WITH LIGHT & SOUND DETERRENCE

NEW Turbo Series Camera with Live-Guard 3.0 ColorVu Technology

- Strobe light and audio warning alarm
- 24/7 high-quality colorful images

ColorVu Technology

Advanced Hardware

F1.0 Super Aperture

Collects four times more light than the conventional F2.0 aperture used in most cameras to produce brighter images

Advanced Sensor

Vastly improves the utilisation of available light.

Frontier Technology

3D DNR

Enables noise to be filtered effectively from the image, even in low light conditions.

130 dB WDR

Reliable Quality

Active Alignment Technology

Guarantees the focusing performance in the mass production of ultra high-definition ColorVu products, realising good quality control.

* With no-light environment, the camera has supplemental light to guarantee colorful images.

Live-Guard Technology

Strobe light alarm and audio alarm to warn intruders off in real-time

Audio alarm - 4 voice broadcast options

Strobe light alarm - White light
