

HeatPro

Professional Protection Made Simple

SEE THE DIFFERENCE

with Hikvision HeatPro Series Thermal Cameras

Better Target Classification Accuracy

Focusing on humans and vehicles

Faster Target Detection

Even in challenging conditions

Easier Deployment

With three-step configuration

More Product Combination Options

Accommodating various needs

APPLICATIONS

Short distance perimeter detection (up to 50m)

- High accuracy perimeter detection
- Superior environmental adaptability
- High visibility for hidden objects

Indoor fire prevention / temperature measurement

- Early warning before fire happens
- Flexible temperature measurement rule
- Wide temperature measurement range, up to 150°C
