

# HIKVISION® HikCentral All-In-One Solution

## What Problems are we Addressing?

As we see more people travel among home, work, stores. And in order to build a safer environment for everyone, temperature screening, mask detection, and social distancing measures have become three main urgent requirements in different scenarios.

### Residential Community

Fast deployable screening solution to build the first health screening back line

### Public Transportation

Efficient screening and social distancing for indoor crowds to avoid cross infection risks

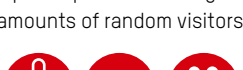

### Industry Park / Office Building

Safe and efficient staff management to help create a safer working environment

### Retail Store & Other

Density control and efficient screening to protect indoor public places with large amounts of random visitors

## Solutions

Recently Hikvision has released the HikCentral all-in-one version to be able to address such requirements. It can work with flexible Hikvision hardware devices for different scenarios to protect the safety, which is ideal for central management of all your different Hikvision hardware devices on a single site or multiple sites.

### Fast Deployment Solution for Residential, Hospitals, etc.

- Live monitoring dashboard:
  - with statistics on All person, no mask, normal and abnormal temperature;
  - Live video / capture of each person with temperature and mask status.
- Real-time alarm notification with multiple linkage actions:
  - Client PC audible warning, windows popup;
  - Email notification;
  - Mobile phone push notification
- Temperature screening report across multiple sites

### Workplace Management for Offices, Factories, etc.

- Touch free authentication for staff and visitor; authentication using face, temperature screening and mask detection;
- Remote door control on HikCentral;
- Instant alarm notification on abnormal temperature or not wearing mask
- Staff temperature screening report with mask status and person details

### Density Control for Retail, Public Places

- Monitoring real-time capacity across all sites on map;
- Receive alarm notification for overcrowded alarm;
- Automatic email sending people counting reports across multiple sites.

## Products

### Thermographic Bullet Camera

DS-2TD2636B-15/P  
DS-2TD2636B-13/P  
DS-2TD2637B-10/P

- High sensitivity thermal module
- Leading thermal image processing technology

### Thermographic Bullet Camera

DS-2TD2617B-3/6PA

- High sensitivity thermal module
- Leading thermal image processing technology

### Thermographic Turret Camera

DS-2TD1217B-3/6PA

- High sensitivity thermal module
- Leading thermal image processing technology

### Dual-Lens People Counting Network Camera

DS-2CD6825G0/C-I(V)(S)

- 1920 × 1200 @ 30fps
- 2 mm fixed lens
- 1/2.8" Progressive Scan CMOS
- IP66, IK08

### MinMoe Terminal

DS-K1T671TM-3XF

- 7-inch touch screen
- Audio prompt

### I Series NVR

DS-76/77/96NI- I series NVR

- H.265+ compression effectively reduces the storage
- HDMI video output at up to 4K resolution

### DeepinMind NVR

IDS-/77/96NXI-I/X(B) Series  
IDS-6708NXI-I/F

- H.265+ compression effectively reduces the storage
- HDMI video output at up to 4K resolution

### VMS HikCentral

- HikCentral Pro provides video management system and intelligent Analysis
