

HIKVISION®

Video & Audio Convergence Solution

Our **Video & Audio Convergence Solution** uses both CCTV and audio technology to provide a real-time warning system and a proactive deterrent.

Small Scenario Eco Solution for Retail, Small Offices, etc.

- For small scenarios and indoor environments such as retail shops and small offices, Hikvision cameras not only make an audio warning and emit flashing light when the alarm is triggered, but can also allow users to communicate to the people in the monitoring area.

- Solution Benefits

- Fast deployment
- Fast audio and light reaction when alarm is triggered

iVMS-4200

Thermal Camera can be disarmed via a one-key button on HikConnect

Small Scenario Pro Solution for Retail, Small Offices, etc.

- For small scenarios and indoor environments such as retail shops and small offices, Hikvision cameras can not only make an audio warning and emit flashing light when the alarm is triggered to protect the secure area, but can also allow users to communicate to the people in the monitoring area.

- Solution Benefits

- Audio broadcast can be customised
- Two-way audio provides a proactive deterrent to prevent bad behaviour
- Fast deployment
- Fast audio and light reaction when alarm is triggered

IP or PTZ Camera

HikCentral

iVMS-4200

Audio speaker logs on the system when using HikCentral or iVMS-4200

Web Camera Client

Large Scenario Solution for Schools, Large Buildings, etc.

- For large scenarios, like schools, council offices, and large buildings that need louder audio warning across larger areas, IP Speakers are available.

- Overall Solution Benefits

- Fast deployment
- Fast audio warning reaction when alarm is triggered
- Loud broadcast volume

Large Scenario Solution One-Site

- Control and management on NVR

- Available Functions

- Alarm linkage to audio

Network Camera

PTZ Camera

IP Speaker

Switch

NVR

- One-Site Solution Benefits

- Easy deployment compared with traditional amplifier and camera solution
- Fast audio warning reaction when alarm is triggered
- Audio broadcast can be customised
- Multi-linkage between speaker and camera: any alarm triggered from NVR-connected cameras can trigger any NVR-connected IP Speaker to play a bespoke audio.

Large Scenario Solution Multi-Site

- Connected via IP
- Device licenses are centralised and managed by HikCentral
- Higher IP speaker capability of up to 512 IP Speakers

- Available Functions

- Alarm linkage to audio
- Customised audio broadcast
- One-way audio for multiple end devices (speech, music playing, etc.)
- Audio speaker can be mapped on HikCentral
- Audio playing schedule available

- Multi-Site Solution Benefits

- Easy deployment compared with traditional amplifier and camera solution
- Fast audio warning reaction when alarm is triggered - audio can be linked to IP speaker through HikCentral
- Audio file can be customised and scheduled to play a regular warning for a certain situation
- Multiple alarms can be triggered to warn the area
- Easy to use: icon can be added on the map in HikCentral and users can talk to any speaker easily without trying to search the name
- Users can broadcast any audio file through the speaker from local laptop or server, or just talk through the microphone.
- HikCentral can support up to 512 Speakers
