4 MP COLORVU IP CAMERA KITS

Full-Color Night Vision, Intelligent Security Features & Built-In Mic

Better Night Vision in Low Light Environments with False Alarm Reduction

-  Captures high-quality, full-color video 24/7 to protect people and property at night with the same sharp rendering as daylight.
-  Built-in microphone provides reliable audio evidence without additional cost.
-  Motion Detection 2.0 for effective false alarm reduction that focuses on what really matters.
-  120dB True WDR, effectively reduces visible noise and artifacts to deliver crystal clear images even against bright backlight.
